WE ARE SAFTRONICS

Serving as an industry leading specialist in the design, manufacture and installation of process automation and power distribution services, Saftronics is a company which offers a complete service for clients across all industry sectors including: power, water, transport, oil & gas and chemical.

Our aim is to be the supplier of choice for control systems projects by providing first class products & service.

We operate throughout the UK from our Leeds factory, where our large and modern design, production and testing facility is based and are the preferred and trusted supplier of choice for many leading and high profile companies.

Our fundamental belief is that modern business requires us to work in partnership with our clients & to add value at every opportunity.
