## **ACH Credit Overview**

If you choose to make your tax payments using the ACH Credit payment method, here's how it works:

1. Two business days prior to the tax due date, you initiate the tax payment through your financial institution. The tax payment report must be made prior to your financial institution's ACH processing deadline.
2. The ACH credit tax payment must be delivered to the Bank utilized by the York Adams Tax Bureau on the tax due date. The tax payment must be specially formatted in the NACHA CCD+ TXP format. Your ACH Credit must include your taxpayer/employer identification number, tax form number, tax period ending date, tax payment amount, and amount(s), if applicable.

## **How to Make a Tax Payment - ACH Credit**

You have the flexibility to make your tax payments directly through your financial institution using a service they offer to originate ACH Credit transactions. If you elect to make your tax payments using ACH Credit transactions, you will need to make sure that your financial institution offers a service to originate your ACH Credit transaction and that you are eligible to use it.

## **Before You Make Your First ACH Credit Tax Payment**

1. Check with your financial institution or Designated Agent (Third Party Processor) to make sure they can originate your ACH Credit tax payments on your behalf. You will also need to check with them to determine the fees charged to originate the ACH credits.
2. You must ensure that they can originate your ACH Credit tax payments in the NACHA CCD+TXP addenda format.
3. Obtain your financial institution or Designated Agent ACH processing deadline and holiday schedule. Make sure you understand their ACH processing deadlines for delivery of your ACH Credit tax payments on the business day prior to your tax due date.
4. The Receiving Depository Financial Institution (RDFI) will send a Notification of Change (NOC) through your financial institution if an error in format or syntax is identified. Review the notification received from the RDFI and make any changes identified. Reinitiate another ACH Transaction through your financial institution or Designated Agent with the corrected information.
5. Originate your first ACH Credit tax payment at least two business days prior to your tax due date. Your ACH Credit tax payment **must** settle into this Bureau's account on the tax due date.
