

Probable Severity	Likelihood of Harm	Risk Rating
Trivial injury = 1	Very unlikely = 1	1 to 6 = LOW
Minor injury = 2	Unlikely = 2	
Moderate injury = 3	Possible = 3	7 to 14 = MEDIUM
Serious injury = 4	Likely = 4	
Major Injury = 5	Very likely = 5	15 to 36 = HIGH

Air rifle shooting - Risk Assessment

2019-2020

All non-licence holders are issued with a Cluny Activities written safety information sheet prior to starting and must confirm they are not a prohibited person under section 21 of the Firearms Act.

Licence holders are required to sign in hire a lane and use their own weapon and must also sign to confirm they are not prohibited under the section 21.

The range is covered by CCTV to enable staff to routinely monitor the range users.

What are the hazards and dangers?	The risk and who to	Severity	Likelihood	Risk	Control measures	Other precautions	Total risk rating
		Ratings					
Being hit by a ricochet pellet fired from another gun	Personal injury to: Other range users and spectators	2	2	4	The back wall is metal to prevent ricochet. The power on each gun has been reduced to suit a 10metre range. Children are supervised by an adult Safety rules supporting the safety information sheet are clearly visible on the range. Shooting across the range is not permitted	Monitoring of the range by CCTV is routine.	Low
Being shot by a pellet from another gun	Personal injury to: Other range users Spectators	4	1	4	The guns are chained to a bench and movement of the gun is limited to "down the range"	Monitoring of the range by CCTV is routine	Low

Re-charging guns with air and being hit by a pellet still in the breach	Personal injury to: Staff	4	1	4	Discharging the gun before filling. All guns have mechanisms where the bolt needs to be pulled back before filling.	Instructors are trained on gun filling	Low
Pellets hitting the roof or lighting	Broken lights, punctured roof. Damage to the building	1	1	1	Lights and lighting are shielded and protected. CCTV is monitored to prevent in appropriate use of a gun		Low
