RESEARCH DEVELOPMENT & COMFORT

Citterio Spa, founded in the early 60s in the province of Lecco, is a dynamic industry, that looks towards the future, alive to collect market challenges, and, thanks to a steady development, a leader in the office furniture.

Citterio offers a wide range of products: blind and glazed partitions, cabinets, staff and executive systems; each of these products is used by designers to meet the needs of the customer, whose ideas are developed and integrated in a unique and personalized project.

Research and innovation, production flexibility, high technology, attention to detail, qualified services able to enhance the investment of users, reliability and continuity, skill in woodworking: all of the features are inherent in the company and in its DNA.

Citterio's products and services stand for functionality, design, eco-friendly and environmentally friendly materials, high quality: essential elements for the new work environment, where more and more attention to the welfare and comfort of the people cannot ignore the aesthetic and functional requirements.

PEOPLE MATERIALS & TECHNOLOGIES

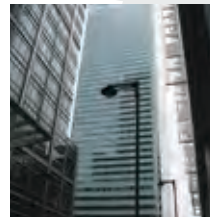

A company made of people, who get together every day, in a relaxed, friendly and creative environment, to turn ideas into products, and eventually projects.
A company where noble materials, such as wood, glass and aluminium, are shaped by expert hands that turn them into products thanks to that we create comfortable and ergonomic work environments with a simple and elegant design.
A company that is committed to welfare of its workers, and workers all over the world, where in the work environment design, elegance and transparency are used to produced the same welcoming feel of a home environment.

ELEGANCE*

SHARD 

The special triangular-shaped section of the supporting structure of Shard is a highly distinctive sign of its minimalist elegance and outlines the structural path of the whole project. Thought to offer multiple solutions for the organisation of the most diverse operating tasks associated with modern work application. This modular system combines support legs and beams with worktops of various sizes, to create endless compositions, ranging from simple individual desks to multiple in-line workstations.

Shard: a workstation dedicated to contemporary design combined to the harmonious rationality.

Functional, lively colored and sound-absorbing screens.

*In-line multiple workstations
with shared top.*

Flexibility and pure elegance for refined and diversified workplaces.

*Various configurations
allow teamwork.*

Single desks and meeting tables make the system complete and functional.

The tops blend with the cabinets making the workplace practical and comfortable.

POINT 

This desk system is elegant and functional at the same time. Point is characterized by the structure in aluminium and multiple finishes of the worktops. The design flexibility and the different dimensional possibilities can make it the ideal interpreter to meet any kind of needs. Combining rigorous design with highly-versatility components, in line with the most modern interpretations of office systems, Point is able to meet the basic layout requirements of those who work alone on simple rectangular tables, as well as the more complex needs of a team requiring to work together in a more structured layout.

Executive and meeting tables with elegant and rigorous design.

Glass and aluminium blend into a perfect harmony of shapes and colors.

Single or multiple workstations create an environment for sharing ideas and values.

Screens for greater efficiency and separation of workstations.

*Ergonomic, essentiality
and timeless design.*

The triangular section of the structure generates strict geometries and high easily reconfiguration.

*Privacy and flexibility for
reconfigurable workplace.*

Free configuration for any work environment, where the aggregates or independent elements optimize the space.

CORNER 

This collection of executive desks and tables is the perfect match for the highest care for detail expressed in an accurately designed building. A system of right angles and clear-cut lines, forming an elegant ensemble of linear planes and perpendicular compositions. Corner is a symphony of lines meeting sharply into edges and tops breaking into angles, each one projecting independently into new directions.

The elegance and the rigor of the vertical and horizontal lines gives life to an important and modern executive desk.

Precious veneers match the minimalist charm of its lines blending noble and refined materials. The top can be equipped with leather inserts.

*The solidside panel is equipped for the wiring of the desk.
A cabinet with sliding door acts as a support to the desktop.*

Corner is also available with independent single legs.

Clean geometric lines characterize the system which is completed with elegant pedestals.

ADD 

A collection of tables featuring a highly geometrical concept. The concept of originality is both tactile and visual: an overall sum-up of fixed and various-length staves. Straight lines dominates the system, the orthogonal settings cast an aura of wisdom and poise. Its characteristic fixed stave allows a series of tables of different configurations: rectangular and square tables, high and small tables, conversation and coffee, waiting tables, meeting tables...

Long horizontal staves enhance the aesthetic rigor of an important meeting table.

The special section "T" makes stable tables made in larger sizes maintaining an extremely slight.

ISLANDS 

A modular system of sound-absorbing screens with extreme elegance that defines the privacy spaces, microenvironments in shared areas for operational work, meeting, reception. The typical design with vertical lines allows to identify areas with high versatility in the use and configuration. Moreover, its structure ensures proper acoustic and provides an adequate level of privacy.
