

Zwick Science Award and Academia Day

Zwick 2016 Science Award

Have you published interesting scientific work in the area of materials testing? Zwick awards this recognition to authors of scientific papers on the most innovative uses of materials testing machines. The registration deadline is December 31, 2016.

Prizes

- First place: Paul Roell Medal and €5,000
- Second place: €2,000
- Third place: €1,000

For more information about the Zwick Science Award, download the PDF file by clicking on the download icon to the right. We look forward to receiving your application.

Zwick Science Award history

- 400 participants
- 280 universities
- 50 Countries
- papers from the field of materials science, engineering, chemistry, medical, biology, construction, building materials,...

FAQ

Who can participate? Any author of the paper (no matter if she/he is still at the university)

What scientific works can be submitted? You can participate with nearly every work, e.g. research articles and scientific papers

Can I only participate when a Zwick testing machines was used? No, every brand of materials testing machines can be used in the scientific work.

How old can the paper be? If the content of your work is still valid the age of the publication is not important.

How will the winners be determined? A jury (1 Zwick employee, 3 professors) will nominate the winners.

Zwick 2017 Academia Day

Where Research and Industry Meet

Materials research is vital to a competitive economy. As the leading manufacturer of testing systems, Zwick promotes and fosters the exchange of information with academic institutions. Presentations and workshops are the ideal forum for this. That is why Zwick has sponsored Zwick Academia Day for many years. It takes place every spring at a different European university or institutions of higher education.

This event gives us an opportunity to recognize how materials testing machines are used in many innovative applications. Zwick Academia Days of the past have served as a platform for the rigorous exchange of ideas and opinions among participants. The mix of participants from science and industry makes this event special, always ensuring there is a direct connection between theory and practice.

May 26, 2017 in Hong Kong

University: Hong Kong University of Science and Technology HKUST

Topic: University 4.0 - Education 4.0 - Industry 4.0

Agenda: Lectures, Discussion, Rewarding of the Zwick Science Award Winners

Social program: pre-event dinner
