# truck mount cleaning systems

## Prochem pioneered the development of engine powered truck mounted extraction carpet cleaning machines over 40 years ago.

Using only the best quality components and engineering excellence, Prochem truck mounts provide cleaning performance with long lasting durability for the professional and commercial cleaner worldwide. Applications include residential, commercial, airline and cruise ship cleaning where high performance soil extraction and fast drying are a priority. Excess moisture, noise and contaminants are eliminated from the cleaning environment, making 'truck mounted' carpet cleaning the fastest growing and most talked about cleaning method in the industry today.

Prochem truck mounts are available direct from Prochem Europe and from selected regional distributors offering installation, training and local after-sales service.

### Safety and the Environment

Prochem truck mounts are CE certified under the Machinery Directive (98/37/EC) as amended. Surfactants contained in Prochem Europe truck mount cleaning formulations comply with the biodegradability requirements of the European Detergent Directive 648/2004. Waste pump-out and drainage outlet systems are designed to discharge cleaning effluent to a sewage drain, which is linked to a local sewage and waste treatment facility. Prochem truck mounts are intended for professional and industrial use only. Service manuals and spare parts lists can be downloaded from our website [www.prochem.co.uk](http://www.prochem.co.uk)

## Blazer GT

### Truck mounted carpet & upholstery cleaning system

Compact, simple and affordable, Prochem's latest Blazer GT is perfect for cleaners upgrading from a portable electric machine. With a corrosion resistant frame and simplified design, the Blazer GT gives cleaning performance and reliability which cannot be matched by portable extractors. # Sapphire Scientific Truck Mounts

The Sapphire Scientific range of powerful, efficient and space saving truck mounts and carpet cleaning accessories are engineered to deliver maximum performance and durability.

Sapphire products are easy to maintain and economical to operate, providing today's cleaning professional with the latest innovations in carpet and floor cleaning technology. Sapphire Scientific truck mounts are built on a unique narrow platform that leaves more space in the van or provides the opportunity to use smaller, more fuel efficient vehicles.

Each model incorporates innovative heat exchanger technology that captures and retains heat efficiently and gives the operator precision control to provide constant hot cleaning solution. A Short Reach Service Design has no component more than 10 inches from the outside, putting all belts, filters, oil drains and other service points within easy reach. Sapphire truckmounts also have an exclusive through-frame belt cooling design that extends belt life to help reduce maintenance costs.

All Sapphire Scientific models are CE certified and include full installation and service back-up in the UK by Prochem Europe.

## Sapphire 370SS

### Truck mounted carpet & upholstery cleaning system

# equipment & accessories

Prochem has, for many years, specialized in the selection and testing of suitable ancillary equipment and accessories for the professional cleaner.

The equipment and accessory range includes interim carpet maintenance equipment, floor maintenance machines, vacuum cleaners, spraying and restoration equipment, carpet and upholstery cleaning accessories and brushes all of which are essential items required for use in conjunction with many of the machines and chemicals in this catalogue.

## Fiberdri® TM4 Carpet dry cleaning system

The Prochem Fiberdri® carpet cleaning system now offers the professional and in-house carpet cleaner a cost effective dry maintenance cleaning method. Designed for use on all types of carpet the machines use contra-rotating brush action to work the dry cleaning compound into the carpet pile.

The systems can be used in areas during working hours as the carpet is kept dry and the unit has a very low noise level. The cleaning and compound pick-up process is automatic with the Renovator system or can be completed by vacuuming to remove the soiled compound.

## Rapid 380

Walk behind floor scrubber drier

The Rapid 380 E and 380 BC are the ideal walk behind scrubber driers for cleaning small to medium sized hard floor areas.

With a choice of mains power or battery versions they are quick and easy to clean both open and confined areas. The adjustable handle and well positioned intuitive controls make the cleaning of narrow and confined areas easy.

A large size tank cover provides for easy inspection and cleaning of the recovery tank which also has a built-in shut-off float.

Thanks to its ergonomic design, the handling of the machine remains constant during use, with solution gradually passing from the solution tank to the recovery tank. The brush is centrally positioned for cleaning right up to walls and skirting and the thermoplastic vacuum squeegee is unique in it's class.

The Rapid 380 E and 380 BC are supplied complete with floor scrubbing brush.
