

TENTERDEN BUILDING & RESTORATION  
RESTORATION & MAINTENANCE

# BRINGING BACK THE BEAUTY AND MAKING SURE IT STAYS THAT WAY

TB&R bring together a combination of traditional values and work practices with the very latest in building innovation and technology. We can provide the finest craftsmen with specialist skills to ensure the very highest quality of finish.

We have worked with English Heritage in the past and met their exacting standards.

We always ensure that our work is sympathetic to the requirements of listed building status. We love old buildings as much as you do – it's more than just a job at TB&R.

But older structures need careful restoration to ensure the character is retained while making sure they can stand up to the demands of 21st century living.

*'We enjoy the challenge. We often find other building firms have shied away from a tricky restoration because of the difficulties involved,'* says construction director Martin Pearson.

Routine maintenance is essential to keep your home in good condition and will save

money in the long run. Our bespoke professional maintenance service ensures your property is kept in the best condition at minimal cost.

We can deal with virtually any maintenance task from clearing out the guttering to lifting an entire house up to replace the sole plate. Just ask.

*"No more leaks in the roof and thanks again for the guttering as well, a job I would never have got around to doing."*
