## Welcome to your Product Selection Guide 2014

This Product Selection Guide is designed to help you to choose the right products to build up an access control system. Paxton produce a variety of security solutions to suit different site requirements. Our one door philosophy means doors can be added as required or when budget becomes available.

### Networked Access Control

Our networked access control system, Net2, is administered using one or more PCs and can be monitored and managed from a central location. Our door controllers come as IP, wireless or battery powered.

### Door Entry

Our door entry system, Net2 Entry, is an advanced one cable door entry system with built-in access control capabilities.

### Standalone Access Control

Our standalone access control is a non-networked system made up of readers or simple door controllers located at each door. Standalone systems are administered via the use of tokens or card packs.

We have two types of Standalone system, Compact and Switch 2.

## New in this edition

### Net2 v5 Software

Net2 is now even smarter with new v5 software, offering flexible security and high functionality with a new look and feel. These intelligent new features include:

- Landlord Tenant capability – partition Net2 software operator permissions to make life easier for customers
- Custom days – create a one-off time period in Net2 for flexibility during special events
- Temporary access permissions – streamline access permissions by allowing a user temporary access to a door or area for a period of time

### Net2 Entry v2.12

Our smart, simple door entry system now offers new high security features to give your customers extra peace of mind.

- Secondary camera integration – increase security by allowing visibility on restricted areas
- Intruder alarm integration – easily set the intruder alarm via the Net2 Entry panel
- Video voicemail – allows site visitors to leave a video message at the Net2 Entry panel

## Networked Access Control

# 6 Wired Controllers - Net2 Plus

## Net2 plus

- A networked IP ready single door controller
- On-board TCP/IP connection allows direct connection to a network
- Can connect together with dedicated RS485 network

Net2 plus 1 door controller Best seller

## Net2 PaxLock blank inner handle cover - Pack of 5

Sales code 901-050  
 Price £25.00  
 More information <http://paxton.info/2004>

# 10 Building Control - I/O Board

The Net2 I/O board is a simple, yet powerful addition to the Net2 system. It can be wired alongside a Net2 door controller, to switch power on and off to electrical equipment to save money and energy. The Net2 I/O board can control lighting, heating, water and air-conditioning by using the Triggers and Actions application in the Net2 software. These actions can be programmed for a particular time, or in response to a specific Net2 event.

- Connect directly to a LAN/WAN only
- Enable integration with lighting, heating and more
- 4 inputs and 4 outputs on the Net2 I/O board

Please note, Net2 I/O boards work as part of the Net2 system. They are not door controllers.

When a valid fob is presented to the reader, the I/O board can be programmed to trigger the power to lighting, heating and electrical equipment.

## Net2 I/O board

Sales code 489-710  
 Price £245.00  
 More information <http://paxton.info/1343>

## Net2 I/O board - Plastic housing

## Manage and monitor Net2 sites from your iPhone or web browser with Net2 Anywhere.

Net2 Anywhere allows you to monitor Net2 access control from anywhere in the world, all you need is an internet connection. Either access via a web browser, or download our specialised iPhone apps for efficient Net2 site management on the go.

What can you do?

- Monitor Net2 remotely over the internet
- See building events, view reports and manage users on a system
- Use special Net2 iPhone apps to access aspects of Net2 on the go

PC with Net2 v4.23 or above and internet connection required

## Door Entry

# 24 Door Entry

## Net2 Entry - A smart, simple door entry system

Net2 Entry is a door entry system that works standalone or alongside Net2 access control, combining door entry with key features of Net2. Net2 Entry is a scalable solution, allowing expansion of up to a hundred panels and a thousand monitors.

- Just 3 simple components
- Units auto detect on setup
- Easy plug and play expansion
- Intuitive, touchscreen monitor
- Smart and robust panel
- 316 marine grade stainless steel VR panel
- Only one type of cable needed
- Includes Net2 access control

## Standalone Access Control

# 28 Standalone - Switch2

## Switch2

Switch2 is a standalone system that comes as a separate single door controller and reader. The door controller is fitted on the secure side of the door, with the reader fitted on the other side. Switch2 offers a secure solution for customers wishing to control door access, who do not need the reports on users' movements provided by a PC based access control system.

# 40 Net2|Integration

As UK market leaders in access control, Paxton want to ensure that we are providing the most sophisticated solutions available. We do this by working with quality manufacturers to provide the best of breed solutions and making them available to you. You can see a map of our Net2 integration eco system below.

## 42 More Information

### Free Training

We offer practical training for our complete range of networked, standalone and door entry products. Sessions are designed to provide you with the essential knowledge needed to install Paxton products quickly and efficiently.

- Ensure accurate installation
- Reduce time on site
- Courses are free of charge
- Materials and equipment provided

For more information and to book a session, go to <http://paxton.info/1940>.

### Industry Leading Technical Support

Call Paxton and you will be put straight through to our expert support team, based at Paxton House. Our friendly team are available from 7am-7pm Monday-Friday, and 9am-1pm on Saturdays.

**Call:** 01273 811011

**Email:** [support@paxton.co.uk](mailto:support@paxton.co.uk)

**Skype:** paxton.support

### Sales Literature

We offer an extensive range of brochures and sales guides to support you every step of the way, from sales to specification.

All documentation is available to download from our website at <http://paxton.info/474>.

## Paxton 5 Year Guarantee and Ultimate Returns Policy

We offer a five year guarantee on all our products.

All you have to do is send us your damaged Paxton product within five years of purchase and we will repair it or send you a new one. Once we receive the product it will be processed within two working days. You will receive a full report via email and your new product will be sent back to you.

We want to make life as easy as possible for installers of Paxton products. Our five year guarantee and ultimate returns policy helps us to do this successfully.

## Distributors - Where to Buy

Our UK distributors are listed below. We regularly review their stock and make sure that it is up-to-date, correctly stored and free from defects. To ensure the quality of your Paxton system, we advise that you purchase only through a franchised distributor.
