

## Natures Crops AHIFLOWER® Seed Oil

### Product Data Sheet

Product Code: AHI-O-NCI-1F

*Nature's Crops AHIFLOWER® Seed Oil* is obtained from the seeds of the *Buglossoides arvensis* plant from non-genetically modified organisms (non-GMO) through natural plant selection. AHIFLOWER® seed oil is uniquely rich in the essential fatty acids stearidonic acid (SDA) and gamma linolenic acid (GLA). The naturally high unsaturated fatty acid content can impart an aroma characteristic of ALA-rich oils in certain applications. All crops are closely monitored and then processed to demanding standards to comply with Natures Crops' proprietary *Crop Assured 365®* system of quality control and traceability protocols. Ahiflower is stabilized with an all-natural, non-GMO antioxidant.

### Typical Data

Appearance	Pale Yellow Liquid
Color	< 2.0 R; <20.0 Y
Peroxide Value (meq/kg)	< 5
Anisidine Value	< 15
Unsaponifiable Matter (%)	< 1.5
Moisture (%)	< 0.2
Free Fatty Acid (%)	< 0.3
Palmitic Acid (%)	4 - 7
Oleic Acid (%)	6 - 14
Linoleic Acid (%)	9 - 15
Gamma-Linolenic Acid (GLA) (%)	4.5 - 8
Alpha-Linolenic Acid (ALA) (%)	42 - 48
Stearidonic Acid (SDA) (%)	17 - 21
Other Fatty Acids (%)	< 5

### Packaging

Available in 190 kg (419 lb) drums & 20 kg (44 lb) pails capped with nitrogen.

### Storage & Handling

Product is packaged under nitrogen gas. Shelf-life for unopened 190kg steel drums is 30 months from date of manufacture. Shelf-life for unopened 20kg HDPE pails is 24 months from date of manufacture. Store refrigerated or frozen for improved stability. After opening, purge with nitrogen gas to prevent oxidation and store refrigerated or frozen to maintain quality.

### Allergens

None
