HR Software for Office 365

PeoplePoint365 has been designed to work with Microsoft Office 365 making it a good fit for businesses that are looking to maximise their Office 365 environment and get a quicker ROI.

Our system works inside SharePoint online as part of Office 365 and so provides the same level of scalability, flexibility and security as SharePoint on-premises with the added benefit of being 'always available'.

PeoplePoint365 allows businesses to build the best system for their needs and also includes the ability to extend the functionality by adding a Recruitment & Onboarding module.

PeoplePoint365 also dove-tails neatly with LearningPoint365 to provide the complete HRM system.

Modern Look and Feel

PeoplePoint365 can be easily customised to reflect your corporate identity and can also become a central part of your Company intranet.

Left hand navigation, quadrant grids and quick links mean everything is presented in one window, where users can get access to everything they need, in one place.

A Global Solution

PeoplePoint365 is designed to meet the needs of large multinational businesses that require global deployments and the ability to have regional HR managers/administration within a single deployment.

System Highlights

- Simple, clean user interface makes the system easy to use and administer
- Made for O365 so everything is in one place
- Modular system means you only pay for what you need
- Powerful, customisable reports to aid HR and business strategy development
- Dynamic organisational charting provides visibility across all levels and highlights 'empty chairs' within an organisation
- Integrated Recruitment & Onboarding and LMS options support strategic talent management and workforce planning
- Self-service portals helps to automate time consuming manual processes

A Simple Approach

One-time unlimited user licensing

A transparent single licensing model helps businesses to manage expectations and budget for scalability with no annual charges.

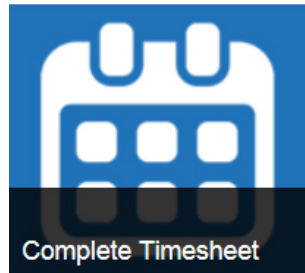

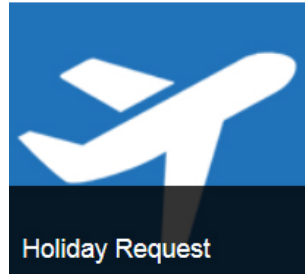

Integration as standard

PointSolutions integrate with a broad range of systems including Sage, Opera and Ex-chequer which helps to avoid duplication and errors resulting in an increase in efficiencies and productivity.

Best-of-breed

PointSolutions aren't resellers, we have built our solutions in-house, using native SharePoint functionality and so we are able to provide expert support without it costing the earth.

Software Assurance Option

As your business grows and the software market evolves, Software Assurance provides access to regular app updates, meaning that you will always have the best possible system. Enhancements aren't restricted to performance and usability but are more focused on new and improved functionality, which helps to ensure your HR software is always ahead of the game.

Support Credits Option

PointSolutions offer a number of credit based support packages, to help businesses maximise and extend the SharePoint environment. Our packages allow you to call off credits/time to contribute towards enhancing the systems we have helped you deploy.
