BENIF INTERIOR FILM - PROJECT NEWS

BENIF INTERIOR FILM FIT FOR PURPOSE FOR BANNATYNE HEALTH CLUBS

Bannatyne Health Clubs, founded by Dragons Den favourite Duncan Bannatyne, is the largest independent chain of health clubs in the UK.

The company looked at ways at how they could refurbish their lockers, counter tops, bars, washroom walls and doors instead of simply scrapping them and sending to landfill.

Benif Interior Film provided the perfect solution.

For this project, specialist contractors T6 used a range of Benif Interior Film designs and finishes to cover the surfaces which even included ceramic tiled walls.

The refurbishment, part of an ongoing roll out across the clubs, was achieved without any major operational disruption to the business, and the results were both visually pleasing, cost effective and practical thanks to the Benif's low maintenance requirements and longevity of performance.

BENIF INTERIOR FILM ON THE MENU AT CARLUCCIO'S

Italian restaurant chain Carluccio's environmental policy includes refurbishing equipment rather than replacing it, if practicable.

To refurbish the surfaces of their chill cabinets and storage units, Benif Interior Film was seen as the perfect solution.

For this project specialist contractors Distinct Decorators used Benif solid graphite Interior Film to cover the surfaces, the work being carried out with minimal disruption to the business.

BENIF INTERIOR FILM ON DISPLAY AT NEC

Benif Interior Film was specified to refurbish a washroom facility at the NEC. Specialist contractor T6 transformed the washroom in under 7 days covering

the walls, cubicle doors and paneling with a selection of designs from the Benif Interior Film range.
