### TEAM EFFECTIVENESS

*"I want to be as good as I possibly can be - where do I start?"*

Most people have certain talents and often play to those strengths in their work. However, no matter what someone's job title may be, they often need additional skills and understanding to ensure that they play an effective part in the team. Our bespoke Team Effectiveness events are designed to help bridge that gap and work with people to help them recognise how they can play an effective part in a wider work team.

### LEADING TEAMS

*"I always thought I could be a better manager - I just didn't know how to do it."*

Managing people isn't rocket science, but it can sometimes seem very hard work indeed. That's why we developed our 'Leading Teams' workshop which is designed to enable people to learn how to manage their team - and themselves - more effectively, while having fun at the same time.

### MAKING AN IMPACT

*"I'm only comfortable presenting to a mirror."*

At some point in their career development, many people find that they need to raise their profile and enhance their role. In order to do this they will need to learn new skills and behaviours. The training we offer is appropriate for experienced staff and new recruits alike, because everyone can benefit from polishing up on their skills and developing talents they didn't even know they had.
