Bremont introduces the SOLO-32 Ladies Chronometer Collection

MARCH 2016

The British manufacturer is delighted to announce the forthcoming release of its Bremont SOLO-32 Collection comprised of ladies mechanical chronometers. Whilst Bremont has prided itself for several years in producing beautifully engineered and manufactured British mechanical watches geared towards the adventurous male, it has become apparent that the British watch brand is not short of its female followers too.

The Bremont SOLO-32 Collection sees the introduction of a new 32mm case and a number of new dial designs. The SOLO-32 AJ line has a more modern aesthetic with applied index markers and named in honour of one of the English brothers' childhood heroes, Amy Johnson, who flew her DH-60 Gypsy Moth from England to Australia in 1930. Complementing this model is the SOLO-32 LC timepiece which is classic and timeless. Named after Lettice Curtis, arguably the most remarkable female pilot of the Second World War, flying a wide range of military combat aircraft with the Air Transport Auxiliary and being the first woman to qualify to fly a four-engine bomber.

Bremont Co-Founder, Nick English: "A large mechanical watch, relatively speaking, has always been a striking addition to any ladies wrist, but at the same time, many women like variety and a smaller more manageable timepiece is a wonderful option to have. We are adamant that we stick to our core principles with the new SOLO-32 models. The collection will be beautifully engineered, robust mechanical chronometers with many of the watch parts being made at our Parts Manufacturing Facility in Silverstone, UK."

The mechanical BE-10AE chronometer rated and beautifully finished automatic movement will have a 40 hour power reserve and will be housed in a 32mm case that is a little over 9mm in thickness.

As with the core collection timepieces, the polished SOLO-32 steel cases will undergo a similar hardening treatment (2000 Vickers), providing high impact resistance but still retaining its polished surface finish. The signature coating gives the three-part Trip-Tick® watch case extreme hardness, excellent toughness, good wear and high impact fatigue resistance, a technique used widely in the aerospace industry.

The convex sapphire crystal is equally as hard and has nine layers of anti-reflective coating applied to both sides of the glass for increased legibility and the high standard of finish and attention to detail can be seen in the meticulous machining of the three-part Trip-Tick® cases which take considerable time and skill to apply.

The SOLO-32 range of watches will be available on a variety of leather straps and a stainless steel bracelet.

ABOUT BREMONT

Bremont is an award-winning British luxury watch brand, manufacturing mechanical watches in Henley-on-Thames, England. Bremont is also making considerable investment with its UK watch making and manufacturing and at the end of 2014 launched a new facility in Silverstone to manufacture case and movement components.

Co-founded by brothers Nick & Giles English in 2002, Bremont has made a substantial impact on the watch industry in a very short period of time. The brand remains true to its original principles of; British, Aviation, Engineering and Adventure.

As well as manufacturing watches for some of the most exclusive military squadrons around the world, Bremont continues to play an influential role in revitalising the British watch industry, the birthplace of numerous timekeeping innovations still used today. Recent collaborations have seen Bremont work with the likes of aviation giant Boeing and the iconic British automotive company Jaguar.

Bremont has been appointed Official Timing Partner to the 35th America's Cup and to the defending champion, ORACLE TEAM USA. Renowned as the oldest trophy in international sport the America's Cup first took place in 1851 on the waters off England's south coast. As the first official British timing partner to The America's Cup since 1851 Bremont has embarked on a very exciting project to produce a special edition collection of timepieces to celebrate its involvement.

SOLO-32 AJ

SOLO-32-AJ/WH

SOLO-32-AJ/BK

CASE BACK

SOLO-32 AJ WATCH FEATURES

MOVEMENT

Modified calibre 9" BE-10AE automatic chronometer, 18 jewels, Glucydur balance, Anachron balance spring, Nivaflex 1 mainspring, 28,800bph, 40 hour power reserve.

FUNCTIONS

Hour, minute, second, date at 6H.

CASE

Polished hardened stainless steel Bremont Trip-Tick® construction. Case diameter 32mm, lug width 16mm, case thickness 9.65mm.

CASE BACK

Polished hardened stainless steel case back, 6 stainless steel screws with polished heads.

DIAL

White metal dial with blued steel hands and nickel indexes. Black metal dial with polished nickel hands and nickel indexes.

CRYSTAL

Domed anti-reflective, scratch resistant sapphire crystal.

WATER RESISTANCE

10 ATM, 100 metres.

RATINGS

C.O.S.C chronometer tested and certified.

STRAP

Various straps with polished pin buckle or integrated stainless steel bracelet.

CERTIFICATION

Individually serial numbered with accompanying C.O.S.C certification.
