

ELECTRICAL SAFETY EXCELLENCE

TRAINING · ASSESSMENTS · COMPLIANCE

WorkplaceSafetySolutions
INCORPORATED

WHO WE ARE

Workplace Safety Solutions is a consulting firm with a mission to reduce accidents and injuries to employees through education, training and by increasing safety awareness. The goal is to assist employers with keeping the employees healthy and productive. For the employees, working safely improves the quality of their lives and for the employer, there is a beneficial financial impact on the organization.

WHAT WE DO

Workplace Safety Solutions provides a variety of electrical safety training services. We will visit your workplace and analyze all aspects of electrical safety and OSHA compliance. We then provide the prevention training and written programs needed to protect your business, your employees and your bottom line. We can also conduct ARC flash analysis of your facilities to determine levels of fire resistant clothing required to safely work on exposed energized parts.
