What do the symbols mean?

We have chosen to simplify the selection making process by using symbols on each door range to help you to make the right decision about your next kitchen without the need to read endless paragraphs. The features, colour and the size are all factors to think about when deciding on the right kitchen for your needs.

Italian Products

Products showing this symbol are made in Italy.

Made to Order

Many of the doors can be made to your required sizes, colour choice or a combination of both. Please look for the symbols next to the door.

Colour Matching

This symbol next to a door range means it can be produced in any colour. If you have a sample of a colour you like then we can match it.

Premium Timber

The Premium Timber stamp of approval applies to doors that are made from real wood or real wood veneers.
