

# COLLAPSIBLE STEEL REELS

---

L&R Industries is the premier manufacturer of top-quality collapsible reels for storing and pulling a wide variety of flexible HDPE conduit, tubing, piping, hoses, cords and much more. Because our take-apart metal reels are collapsible you get tremendous value on shipping costs, minimize on-site storage space, and get complete flexibility with super-fast assembly in the configurations you need, when you need them! Single and multiple compartment reels are available in flange sizes up to 120" and drum diameters up to 80". See a complete size chart online or contact us to discuss your needs and applications.
