

silhouette®
wound + skin assessment

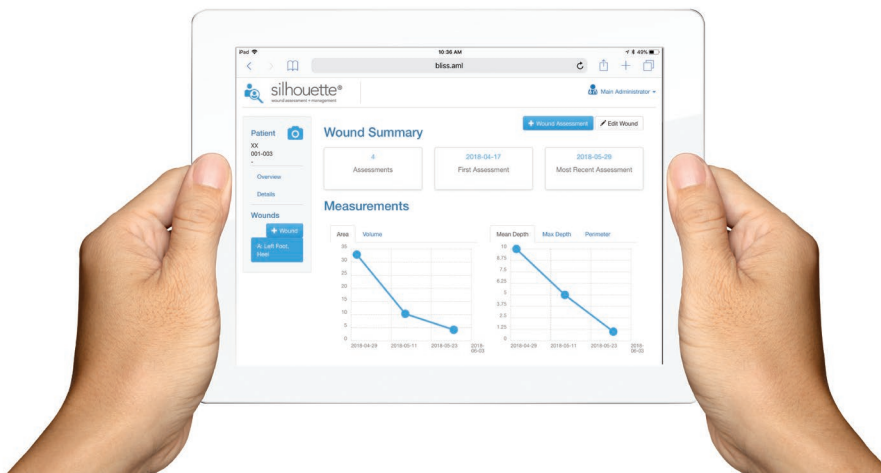

Delivering
the evidence
you need for
a successful
clinical trial.

Reduce your risks by choosing Silhouette®. The world's leading skin and wound imaging, measuring and data management solution.

Silhouette delivers:

- The data that regulatory bodies are seeking for endpoint measurement and validation.
- Unparalleled accuracy and consistency of images and data.
- Sophisticated yet simple to use devices that virtually eliminate user error.
- Detailed healing data by tissue type as well as 3D depth and area measurements.
- Regulatory approvals and supports compliance with CFR Part 11 and HIPAA.
- A secure cloud-based system that provides up-to-the-minute visibility of patient recruitment and assessment status in simple to read dashboards.
- Full implementation support for sponsors, SMOs and CROs.

For more than 10 years Pharmas, CROs, and BioTechs have chosen Silhouette to image, measure and document the efficacy of their drugs and devices on wounds and skin conditions.

- More than 150 clinical trials across 37 countries have chosen Silhouette.
- Silhouette has delivered over 150,000 wound and skin assessments for clinical trials.
- Our superior support services are available globally 24x7.
- We provide full project management, planning, configuration, training, data management, and blinded assessment for clinical trials, making Silhouette the obvious choice for clinical trial imaging, measuring and data management.

“The benefits of using Silhouette have been enormous for us. We have been able to accurately provide detailed measurements across all of our research sites, export the data when we needed it, and the secure database of images and measurements enables all clinicians to see how the wounds are healing without compromising patient confidentiality.”

Kimberly Dorsch, CCRP, CRCP, Director,
Global Clinical Affairs, LifeNet Health

Silhouette Operates Across Trial Sites

About ARANZ Medical

ARANZ Medical is a healthcare informatics company focused on innovative medical imaging and data-capture devices, and analysis software. The Silhouette product suite is primarily used for wounds and skin disruptions, and is well suited to clinical trial and telemedicine applications. The company is an ISO 13485 certified manufacturer of medical devices.

Patents pending. Silhouette is approved for sale in the USA, Europe, Australia, Canada and New Zealand. Specific features of the solution may change without prior notice. Silhouette, SilhouetteConnect, SilhouetteStar, SilhouetteLite+ and SilhouetteLite are trademarks of ARANZ Medical Limited.
