## Halo-Free, Plastisol Ink, Variable Data Heat Transfers

(Product Reference: HFPI 1)

ITL's halo-free heat transfers are produced with Phthalate free (PVC free on request) inks. These inks have high opacity and good stretch characteristics.

They are ideal as a cost effective "tagless" and brand identification embellishment.

### Product attributes

- Available in hot peel reel to reel, warm and cold peel cut singles.
- Excellent opacity on dark fabrics.
- Oeko -Tex Standard 100 product class 1 certified.
- Available in standard colours or custom shades.
- No visible halo for crisp image.
- Durable to match the life of the garment and maintain brand integrity.

### End uses

- Ideal for lingerie and intimate wear.
- Safe for infant wear.
- Short run, variable data requirements.
- General apparel, men and women.
- Corporate wear.
