

Post Trauma Support / Critical Incident Management

“you don’t need to face challenges on your own; help is available for employers & employees alike”.

Summary of Service

Accidents happen...it’s just the way the world is. How we deal with them differs from person to person, organisation to organisation. However, you don’t need to face these challenging times on your own; help is available for employers and employees alike. Health Assured delivers specialist Post Trauma Support / Critical Incident Management on a national basis.

Onsite Support

Your specialist Counsellor / Counselling team will be onsite, typically within 24 to 48 hours to deliver a

specialist group counselling debriefing. However, as an organisation you will have immediate access to 24 hour telephone support to assist you with the management of the incident.

Follow-up Support

If an individual requires follow-up counselling, we are able to provide structured telephone counselling or indeed face to face counselling across the UK. These additional services are available at no additional costs to organisations already engaged with a Health Assured EAP with these benefits included.

To obtain a personalised quotation or to arrange Post Trauma Support, simply call

0844 8922 493

Health Assured regularly provides incident support for many of the leading brands in the UK and is a recognised and experienced market leader. Health Assured is the only EAP Provider to be endorsed by The Stress Management Society.
