

metroSTOR **PBL** Bin Storage Units (140L-360L Waste & Recycling Bins)

metroSTOR Waste & Recycling Storage Products

metroSTOR waste & recycling storage facilities are an essential tool in the control of both residential and commercial waste-streams; increasing recycling rates and eliminating cross contamination while raising the profile of our communities with proven reductions in litter, fly-tipping and anti-social behaviour. Reduced fire risk is achieved with metroSTOR products providing secure storage for waste and recycling bins away from the property ensuring that fire is contained in the event of a bin being set alight.

metroSTOR PBL Enclosed Storage Units for 140L-360L Bins

Designed primarily for residential applications where 2-wheeled bins are in use by individual dwellings, metroSTOR PBL provides an enclosed waste and recycling centre for all versions of 140L – 360L bins. Specific internal unit dimensions ensure that bin lids cannot be left open with the resultant wind-blown litter issues and the availability of factory or retro-fitted recycling apertures avoid waste stream contamination.

Compact and unobtrusive form enables metroSTOR PBL units to be conveniently located close to entrances or in communal gardens making the facility easily accessible to users and bin crews. The low profile design allows installation in garden areas and in front of windows.

metroSTOR PBL is a modular, flexible, future-proofed design that can be adapted to the challenges of evolving waste stream requirements. Optional integrated shelving enables kerbside and caddy type stacking bins to be accommodated within the unit.

Durable Construction

Fully welded steel frame. Hot dip galvanised finish standard. Heavy duty components.

Access Control Options

A highly configurable lock case accommodates latch only, lock or deadlock with key management and keypad options.

Cladding & Finish Options

Wide choice that enables you to specify the unit finish suited to site application from vandal resistant steel cladding to hardwood slatted panels.

Configurable Specification

Single and double door widths with left or right hanging options enable units to be specified for access and location requirements.

Bin Loading Options

Unit doors can be specified with general waste and recycling apertures or fully enclosed with restricted locking system to suit waste stream control.

Ground Fixing System

Base plate design allows for installation to accommodate sloping sites. Units relocatable as site requirements change over time.

metroSTOR PBLN Series Bin Storage Units

| Model: | PBLN 1 | PBLN 2 | PBLN 3 | PBLN 4 | PBLN 5 | PBLN 6 |
|----------|-------------------------|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Storage: | 1no. 140L 2-Wheeled Bin | 2no. 140L 2-Wheeled Bins | 3no. 140L 2-Wheeled Bins | 4no. 140L 2-Wheeled Bins | 5no. 140L 2-Wheeled Bins | 6no. 140L 2-Wheeled Bins |
| Depth: | 800mm | 800mm | 800mm | 800mm | 800mm | 800mm |
| Width: | 660mm | 1180mm | 1750mm | 2270mm | 2840mm | 3360mm |
| Height: | 1490mm | 1490mm | 1490mm | 1490mm | 1490mm | 1490mm |

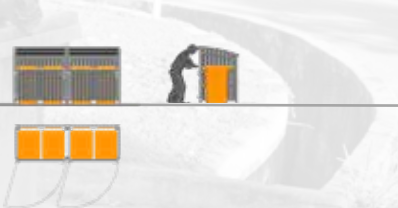

metroSTOR PBL Series Bin Storage Units

| Width: | 760mm | 1380mm | 2050mm | 2670mm | 3330mm | 3950mm |
| Height: | 1490mm | 1490mm | 1490mm | 1490mm | 1490mm | 1490mm |

PLEASE NOTE: Product dimensions given are maximum external unit dimensions correct at time of publishing July 2019. All product dimensions are in millimetres and capacities in litres and do not form any part of the contract.

**ForestPanel™**

- FSC European Redwood
- Pressure Treatment
- Light Green Finish
- 100mm PSE Plank

**ForestPanel™ Colour**

- FSC European Redwood
- Pressure Treatment
- Coloured Woodstain System
- 100mm PSE Plank

**ForestPanel™ FR**

- FSC European Redwood
- Fire Retardant Coating
- Clear Finish
- 100mm PSE Plank

**ForestPanel™ Cedar**

- FSC Western Red Cedar
- Natural Finish
- 100mm PSE Plank

**ForestPanel™ Iroko**

- FSC Iroko
- Oiled Finish
- 70mm PSE Plank

**Tuffplas™ Black**

- HDPE 100% Recycled
- Black Woodgrain Finish
- 100mm SE Plank

**Firenze™ Black FR**

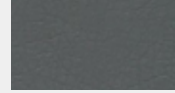

- SSAB Steel Panel
- Plastisol P200® Coating
- Black Finish
- Fireboard MgO Core Internal Liner

**Firenze™ Grey**

- SSAB Steel Panel
- Plastisol P200® Coating
- Goosewing Grey Finish

**Firenze™ Grey FR**

- SSAB Steel Panel
- Plastisol P200® Coating
- Goosewing Grey Finish
- Fireboard MgO Core Internal Liner

**Firenze™ Anthracite**

- SSAB Steel Panel
- Plastisol P200® Coating
- Anthracite Grey Finish

**Firenze™ Anthracite FR**

- SSAB Steel Panel
- Plastisol P200® Coating
- Anthracite Grey Finish
- Fireboard MgO Core Internal Liner

**Firenze™ Blue FR**

- SSAB Steel Panel
- Plastisol P200® Coating
- Cornflower Blue Finish
- Fireboard MgO Core Internal Liner

**Tuffplas™ Brown**

- HDPE 100% Recycled
- Brown Woodgrain Finish
- 100mm SE Plank

**Tuffplas™ Grey**

- HDPE 100% Recycled
- Grey Woodgrain Finish
- 100mm SE Plank

**Tuffplas™ Green**

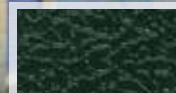

- HDPE 100% Recycled
- Green Woodgrain Finish
- 100mm SE Plank

**Firenze™ Black**

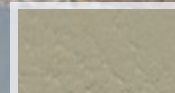

- SSAB Steel Panel
- Plastisol P200® Coating
- Black Finish

Greenroof

Wild® Greenroof Systems can be specified on most types of metroSTOR® product. They provide a great opportunity to create pockets of biodiversity, bringing the enriching and enlightening natural world closer to our everyday lives, entirely within the footprint of your storage unit.

**Firenze™ Green FR**

- SSAB Steel Panel
- Plastisol P200® Coating
- Juniper Green Finish
- Fireboard MgO Core

**Firenze™ Mushroom FR**

- SSAB Steel Panel
- Plastisol P200® Coating
- Mushroom Finish
- Fireboard MgO Core Internal Liner

**Firenze™ Freestyle**

- Galvanised Steel Panel
- PPC Powder Coat Finish
- R5-T8 Perforated Pattern
- Custom Design

**Firenze™ Design Wrap**

- Galvanised Steel Panel
- SAV Graphic Wrap Finish
- Custom Design

**Firenze™ Design Wrap FR**

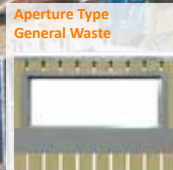

- Galvanised Steel Panel
- SAV Graphic Wrap Finish
- Custom Design
- Fireboard MgO Core Internal Liner

Fire Safety

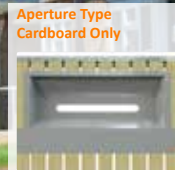

metroSTOR products can be specified to meet relevant fire risk assessment criteria. Our fire retardant options for TGV and sheet type cladding have a Fireboard MgO internal liner with either treated SW timber, HDPE 100% recycled plastic or coated steel panel outer to provide Euro-class A1, UK class 0 reaction to fire. The panels are manufactured from materials of limited combustibility throughout to provide 30 minutes fire resistance to BS 476. Where fire retardant properties are required for an open-spaced cladding type, SE timber plank can be specified with an HR Prof treatment process providing a Euro-class B, UK class 0 Reaction to Fire classification.

**Aperture Type Full Height Door**

- Suitable for Resident and Warden Controlled Applications

**Aperture Type General Waste**

- Allows Bagged Waste or Recycling

**Aperture Type Cardboard Only**

- Allows Only Non-Bagged Cardboard
- PPC Colour Finish Optional

**Aperture Type Bottle Only**

- Allows Only Non-Bagged Bottles
- PPC Colour Finish Optional

**Aperture Type Mixed Recycling**

- Allows Only Non-Bagged Recycling
- PPC Colour Finish Optional

**Aperture Type Recycling**

- Allows Bagged and Non-Bagged Recycling
- PPC Colour Finish Optional

Latch Only

- Self-Latching Daybolt
- No Bolt Lock

Latch + Eurocylinder Key Lock

- Self-Latching Daybolt
- Eurocylinder Key-operated Self-Latching Bolt Lock

Latch + Triangle Key Lock

- Self-Latching Daybolt
- Triangle Key-operated Self-Latching Bolt Lock

Latch + FB2 Key Lock

- Self-Latching Daybolt
- FB2 Lever Key-operated Self-Latching Bolt Lock

Latch + Code Secure Lock

- Code Secured Entrance
- Mechanical Code Lock

Slide Bolt + Padlock

- Self-Latching Daybolt
- Integral Slide Bolt / Handle with Padlock Provision

Please Note: While every effort is made to ensure product information is accurate and informative we advise that this is used for reference only. Street-space Ltd reserve the right to change the design, material and specification of metroSTOR products at any time.

metroSTOR is the leading outdoor storage system for today's built environment, delivering social, economic and environmental value. Combining superb aesthetics with durability for the toughest environments, metroSTOR offers a configurable, modular product system to comprehensively address the challenges of outdoor storage; from waste and recycling bins, mobility scooters and cycles to household items, site equipment and service plant enclosures.

Mobility Scooters

metroSTOR PSL, PSM and PSH provide space-efficient, mobility scooter storage with user-friendly integral battery charging, making for safer communal areas while helping users to maintain their independence.

Waste & Recycling

metroSTOR PBL, PBM, PBE, PBC and PBH products help control waste-streams with robust enclosures and stores for all standard bin sizes. Their smart appearance and unobtrusive physical profile enable recycling centres to be located in spaces that may not have previously been considered.

Household Items & Site Storage

metroSTOR PTL, PTM and PTH are tough, versatile products providing attractive, secure storage for equipment and bulky items in an unobtrusive design. Highly configurable for capacity, layout, access, security and finishes, the proven modular system makes for ease of specification.

Cycles & Motorcycles

metroSTOR PCL, PCM and PCH for custom cycle parking solutions with the efficiency of modular build from transit shelters to cycle hubs. Stands, racks and carousels can all be specified with a number of options available for roofing, enclosure and layout type, finishes and access control.

Service Plant & Industrial

metroSTOR Custom Build is driven by the inherent design flexibility of our products, working in partnership with client input informing the design process. This enables the development and delivery of effective solutions, achieving a consistent design aesthetic.
