

Fraud, by Abuse of Position under section (4) of the Fraud Act 2006. Note, Central Herts Magistrates Court have no records relating to the laying of a complaint regarding the alleged Council Tax arrears, nor any record of a liability order or a summons being issued with regard to this matter. I'm wondering why this is, I smell skulduggery. If you have evidence to the contrary then I suggest you produce this immediately.

(5) Deception/Breach of Trust- If you continue to hound myself for payment of Council Tax by fraudulent means I may be forced to attach a Commercial Lien to you personally and also to Welwyn Hatfield Council as a corporation, If I feel I have suffered a Tort as a direct result of your continued harassment. However if I feel you are continuing try and extort money with menaces then I may even consider a Private Criminal Prosecution through the criminal courts, you may want to investigate what a Private Criminal Prosecution is and how it will affect you.

(6) Statutes and Acts of Parliament- If you cannot distinguish the difference between Common Law and Statutes, that constitutes negligence in public office and again is equal to fraud. Statutes are defined in Blacks Law dictionary 3rd Edition, as a legislated rule of a society given the force of law by consent. That means to enforce statutes you need my consent, if you believe you have my consent then produce the evidence immediately. If you believe I belong to your society then produce the evidence showing when I joined, who accepted my application, when this was and my position within it. Note I belong to a Community not a Society.

(i) It is my understanding Common Law is both anterior and superior to Statute Law, as is defined in Oxford Dictionary of Law 5th Edition ISBN-0-19-860756-3 Page 326.

(7) Please find enclosed two affidavits which are my sworn statements of truth, one for you personally and one for Welwyn Hatfield Council, you may consider them duly served.

I look forward to your timely response,

Yours sincerely,

Enc.
