

# 1m Maksutov Lens for Visible Waveband (450 – 700nm)

## Data Sheet

### Description

Beck Optron Solutions has designed and manufactures a high performance fixed focal length lens suitable for detecting targets at long ranges in the visible waveband:

- Ruggedised for military use;
- Sealed to IP67;
- Can be modified to suit specific requirements.

### Specification

Focal Length	1000mm
F/#	10
Maximum detector diagonal	20.5mm
Field of view	0.61° x 0.34° with 1920 x 1080 x 5.5µm detector
Average Transmission, 450-700nm	90%
Back Focal Distance	17.5mm
Interface	C Mount or as required.
Focus mechanism	Manual or motorised as an option
Weight	2.5kg
Dimensions	400mm long x 125mm diameter
Operating temperature	-30°C to +65°C
Storage temperature	-40°C to +70°C

### About Beck Optron Solutions

BOS has a reputation for excellence in design and manufacture of precision optics that can be traced back over 175 years. Based near London, UK, BOS delivers complex, integrated electro-optic systems for defence and commercial use across the electromagnetic spectrum from UV to LWIR.
