Cover Protection

WINTER/RAIN COVERS

Skyline furniture covers are completely water proof and can be used to keep your Skyline furniture dry and protect against dirt and soiling while outside, so reducing the need for cleaning. They are not recommended as a permanent cover for cushions (more so in winter) as moisture may collect and lead to the formation of mould staining.

Never pack or store folded covers unless completely dry. Allow to dry completely before long term storage.

All covers are tailored for your chosen design and are made slightly over size for ease of placement and removal.

Covers can be maintained and cleaned with a soft cloth and fabric cleaner. The use of harsh solvent cleaners may cause discolouration of your covers.
