

# Suppliers to the Home Improvement Contractor

DESIGNED, SEALED, DELIVERED

**MAKE IT HAPPEN**

**Windows – casement, vertical sliders, energy-rated products from PVC, aluminium and timber materials**

**Doors – residential, French, composite, patio and bi-folding**

**Conservatories – full conservatories or roof only**

## Designed to make your life easier

SIG Windows are the market-leading provider of expertise, advice and products for windows, doors and conservatories in the UK.

Backed by a FTSE 250 company, we won't compromise on tried and tested quality, design, materials and fit. We will provide you with unbeatable service and support. All designed to make your life easier.

This, coupled with our mantra to deliver on all of our promises, means you can always be sure of quality and excellence.

## Sealed for success

We understand that time is money.

That's why we offer all your installation needs from your local 'One Stop Shop'.

The products and services we supply are all intended to help you get the most out of your business. They are as robust, durable and long lasting as you can get.

Plus, through our unrivalled purchasing power and technical expertise you'll benefit from our local network, nationwide – letting our strength work for you. Take advantage of the financial stability that an established and well-respected company brings, by accessing our approved credit terms.

## Delivered to you

We are committed to serving our customers to the best of our ability.

Our infrastructure and strong industry connections mean we can offer you a bespoke order within seven days.

We also work with leading trade associations so all our clients receive the highest standards of efficiency, performance and professionalism.

## The independent choice

SIG Windows is completely independent from any manufacturer. This means that through our extensive range of windows, doors and conservatories, available across the country, you can maximise your selling power to ensure you give your customers exactly what they want, when they want it.

**With the most extensive choice of windows, doors and conservatories in the market all our products are available as A-rated from key manufacturers.**

**This means we have everything to give your customers exactly what they need, while complying with required energy ratings and building regulations.**

To ensure we deliver the best technical expertise, our teams have all the relevant industry background and experience you need.

All of our team members are experienced professionals with many years in the industry – coming from either a surveying, fitting or production background.

We guarantee more flexible and attentive support than any other supplier. Quite simply, we always ensure you have all you need to finish the job and ensure your success.

As a customer of SIG Windows, you can expect to reduce your business overheads through:

- Use of our warehouse and storage facilities, so you only carry the stock you need
- A technical team that ensures quality control of all products purchased, delivered and collected
- Reduction in waste disposal charges through accessing our rubbish disposal facility – we have a skip in all branches\*
- Use of our marketing support package to generate further business
- Provision of business through our lead generation website
- Use of our on time site deliveries and consistent and flexible lead times
- The stability, longevity of supply and credibility you get through the backing of a national organisation
- Secure guarantees with all of our products insurance approved and accredited
- Full technical support from planning to execution
- Fast detailed quotation with CAD drawing
- And, for when things don't go quite right we offer a unique 'remake service'

## A clear winner

**SIG Windows supplies high-quality, energy efficient windows throughout the construction industry.**

**Our advanced glazing products incorporate insulated frames, the latest security features, quality double-glazing and weather tight seals. In addition multi-chambered profiles ensure heat loss is kept to a minimum.**

The breadth of our range gives you the beauty of real wood, the practicality of PVCu and the versatility of aluminium.

And, where noise is an issue, the thermal insulation properties of PVCu and a unique Q-Lon gasket help minimise disturbance from the outside world. Each material comes with a number of advantages.

## Aluminium windows

Our aluminium range comes in a choice of smaller frames for a traditional farmhouse style property or large expanses of glass for modern houses.

The complete range includes traditional hinged casements, vertical sliders (that function like sash windows), tilt-turn and reversible windows.

- High-security friction hinges
- Shootbolt locking mechanism with high-strength brass alloy bolts into the die-cast keeps in the outer frame
- Exceptional quality that exceeds the required standard

## PVCu windows

- Affordable and easy to install
- Low-maintenance
- A-rated and BFRC energy rated
- Secure, with market-leading Yale and Sac Loc security features
- Comprehensive product range including casement, tilt & turn and vertical sliding styles
- Variety of solid colours and natural wood effect foils

Our comprehensive PVCu range includes:

- Flush fitting casement
- Reversible
- Dual swing
- Tilt & turn
- Slide & tilt
- Sliding sash

## Timber windows

Our timber range is better designed, better specified and better made than ever before.

Made from knot-free, engineered timber in a choice of modern and traditional designs they provide up to 60% increase in strength and stability.

- Single, double or triple glazed, A-rated with U-values as low as 1.0W/m<sup>2</sup>K
- Secure multipoint locking mechanisms
- Fully painted with flexible micro-porous paint, with stained or aluminium clad options
- 8-year paint guarantees and a full 30-year lifetime guarantee on the timber itself
- Bespoke by design, from Georgian sash windows to contemporary casements and one-off bespoke orders
- Made from slow grown timbers from sustainable, renewable and certified resources

## Unlocking opportunity

We have a fantastic range of PVCu, composite, timber and aluminium doors from market-leading manufacturers, including:

- Residential doors
- Bi-fold doors
- Double & French doors
- Patio doors
- Panel doors
- Stable doors
- Front doors

Each material comes with a number of advantages.

### PVCu Panel Doors

Our collection of high-quality PVCu panel doors are available in a variety of panel styles and meet all British and European standards for manufacture and performance.

The 'Secured By Design' accreditation for the doors and hardware is a unique achievement, while multi-point locking mechanisms give your customers extra peace of mind.

An extensive range of insulated features and side panels with glazing options accommodate every type of installation.

### Composite Doors

Our composite entrance doors are designed to replicate the look and feel of traditional timber. A wide range of styles includes solid doors, semi and fully glazed options.

- Polyurethane or Solid LVL (Laminated Veneer Lumber) door construction
- Multi-point locking system
- Secured by Design and fire doors available
- Extensive range of hardware
- Matching side and top light options
- Aluminium disability low threshold option
- Triple sealing system for improved compression and weathering
- Galvanised steel and aluminium reinforcements

- Framing predominantly in white, for use with solid coloured slabs
- Available in woodgrain finishes
- Proprietary ventilation devices can be used on all designs
- A range of head details including head extensions and one-piece head vent with recessed outer grill also available

### Bi-fold, Patio & French Doors

Stylish, strong and energy efficient our Bi-fold, Patio and French doors instantly brighten a home and bring the outside in. Manufactured using the highest-grade materials and to the finest tolerances to provide a tight seal, with glazed and solid panels.

Customers can choose from PVCu, timber and aluminium with high security locks, and toughened or laminated glass fitted as standard.

### Ancillaries

- A comprehensive range of ancillaries, including add-ons, corner posts and couplers are also available
- Designed to accept multi-point locks and various hinge types for added security
- Handles, hinges and letter plates in white, black, gold and chrome

Bring the outside in

As an established distributor, we offer the widest range of styles with a range of options for personalisation.

Whether it's choosing the style of conservatory that's right for your project, or producing CAD drawings and design for bespoke solutions, we can assist you every step of the way.

The unbeatable service and support we provide enables you to get the most out of your conservatory business.

From providing comprehensive information about designing and installing conservatories and orangeries, to full installations and roof only solutions that transform light and space, we do it all, including:

- Larger spans with a portal system
- Energy performance and light transmission levels
- Ancillaries and options such as roof vents, box gutters and blinds
- Specialist glazing including self-cleaning active glass

Loggia conservatories integrate seamlessly, providing structural integrity and excellent U-Value performance in a light and airy environment.

The Loggia is the first cross over extension solution that can be entirely personalised to blend in with the homeowner's existing property, lifestyle and budget.

They appeal to traditional conservatory customers and also homeowners wanting all the benefits of a traditional extension minus the hassle.

- Solidity of an extension without the cost or red tape
- Quicker to build
- Year-round temperature control
- Superb thermal performance that far exceeds standard conservatories

## The SIG range

From the T-shaped, practical Lean-To and the stunning Lanterns we've got a style to suit every taste. The new range of 'Extension' style systems such as 'Orangeries' (including 'Livin' Room) and the Italian Renaissance inspired 'Loggia' systems give you a number of exceptional new options to satisfy your customers' preferences.

Our conservatories are:

- Extremely thermally efficient
- Ensure comfort all year round
- Approved by the BBA (British Board of Agrément) for at least 25 years
- Competitively priced with marketing support packages to help you grow your business

Our Ultraframe roofs are built to last with:

- Double glazed glass units to meet full safety glazing material to BS6206
- Polycarbonate glazing material that must be strong and shatterproof

All our Ultraframe roofs are designed to withstand the harshest conditions and are approved by the BBA with a life expectancy of at least 25 years.

## The Timber Revolution

**Our timber windows, doors and conservatories offer the beauty of real wood, save money through energy costs and can add value to your home.**

### **Timber Windows, Doors and Conservatories – A ‘solid’ Opportunity**

With more and more homeowners turning to traditional materials for use on their properties either through choice or through planning and conservation requirements, we have a great quality suite of products to suit your every need from our Standard & Premium timber ranges.

### **Peace of Mind**

With third-party accreditation from TRADA's Q-Mark scheme as evidence that our windows meet or exceed all relevant British Standards, including BS 644 and BS 6375 I & II, we can offer you total peace of mind. Safe in the knowledge that products you choose come with a range of quality guarantees that include:

- **Timber: 30-year fungal and insect guarantee**
- **Sealed Unit: 10-year sealed unit guarantee**
- **Hardware: 10-year hardware guarantee**
- **Workmanship: 10-year guarantee**
- **Painted/opaque: 8-year coatings guarantee**
- **Stain/translucent: 5/6 year coatings guarantee**

### **Modern timber windows and doors are supplied:**

- **Better designed, better specified and better made than ever before**
- **From knot-free, engineered timber providing up to 60% increase in strength and stability**
- **Single, double or triple glazed with modern traditional designs**
- **With secure multi-point locking mechanisms for peace of mind**
- **Fully painted with flexible micro-porous paint**
- **With better guarantees than PVC including 8-year paint guarantee and a full 30-year lifetime guarantee on the timber itself**
- **Easy to install, so fit and forget**
- **Requiring minimal maintenance**
- **Bespoke by design, from Georgian sash windows with authentic period detailing, to contemporary casements, to one-off bespoke orders**
- **Made from slow grown timbers from sustainable, renewable and certified resources**
- **Beautiful and durable**

We also supply a range of bespoke conservatories and orangeries

Whether your customer has an existing conservatory or are considering an extension to provide ground floor living space, a conventionally glazed conservatory roof may not be the best option for them.

Despite advances in glass technology, blinds and ventilation traditional glass or polycarbonate glazed conservatories can be inefficient at retaining heat on cold days and are often considered expensive to heat. They can also be prone to excessive heat build up on hot days, especially in sunny aspects of south facing locations - The Solid Conservatory Roof is an alternative solution.

- **The only patented replacement for conservatory roofs on the market**
- **Sleek trims and cappings**
- **3 roof colours available**
- **Perfect for new-build or replacement roofs**
- **Roof pitches as low as 15 degrees**
- **Can be installed by window and conservatory fitters with the minimal of advanced training and assistance**
- **Roof light windows also available to compliment all finishes, see Velux Rooflite windows opposite**

A conservatory is a great investment, the Solid Roof allows an extension to a living space that can be used all year round. Externally the Solid Conservatory Roof is aesthetically superior to its conventional rival, insofar as its tiles and cappings are streamlined and unobtrusive. Not relying on bulky portal frames, concrete or brick columns, it's lightweight facet provides for more options in relation to window and door selection.

The Rooflite collection is a range of central pivot roof windows with special slimline wooden profile, equipped with a ventilation valve which allows comfort and added value for all budgets.

Passive ventilation, provides fresh air in your room, either through the ventilation valve without opening the window, or with the handle having two different secondary locking positions.

The wooden frames are made from selected pine wood, treated with fungicide and insecticide protection via vacuum impregnation, followed by a coat of water-based lacquer for a natural wood finish. All wooden raw materials come from sustainable forests. Axis90 holds full PEFC chain of custody certification.

- **Fully compliant to NHBC and Building Regulations Part L**
- **Adjustable ventilation valve**
- **Easy to install**
- **Sits flush to the roof**
- **Can be installed on roofs with a pitch between 15° and 90°**
- **Other sizes available**

We are one of the leading suppliers of polycarbonates, plastics and glazing systems in the UK. Our wide range incorporates high quality sheet products from multi-wall (including multi-layered) polycarbonate to hygienic cladding to PVC foam sheet and a full range of ancillaries.

All our products are produced in extremely clean manufacturing conditions to help retain their integrity.

As well as state-of-the-art computerised flatbed cutting machinery for cut to size and shapes in polycarbonate sheeting, we offer technical support to help you solve virtually any sheet material problem.

## The SIG range

We stock a wide variety of sheeting materials, including:

- Multi-wall Polycarbonate
- Multi-layered multi-wall structured polycarbonate
- Palopaque PVC Cladding
- Corrugated PVC Sheeting
- Hygiene Food Grade PVC Sheet
- Rigid Foam PVC Sheet
- Aluminium Composite Panel
- Canopy Systems
- Glazing Bars

## Systems

Sheeting materials can be used extensively on a very wide range of applications:

- Industrial
- Agricultural
- Commercial
- Residential
- Advertising
- Interiors
- Protection
- Food preparation
- Retail display and dispensers

## Glazing Bars

Our glazing bars offer a quality finished product for all your polycarbonate roof glazing solutions.

- Available in white or brown
- Self-support bars (up to 6m free span)
- Rafter support bars (up to 7m lengths)
- Purlin bars
- Caps, gaskets, cap screws, stop ends and mounting plates

As well as being experts in windows, doors and conservatories we have all the ancillaries you need to get the job right. From cellular fixings and cleaners to tools and accessories we've got it all:

- Cellular (architraves, trims, flatboards, flexi angles)
- Fixings
- Silicones, cleaners and adhesives
- Tools
- Brushes
- Finishing ancillaries
- Scrapers
- Frames
- Tapes
- Sanding rolls
- Access platforms and ladders
- Protection
- Gloves
- Dispersal

You can install our range of external cladding horizontally, vertically or diagonally.

And with a variety of textures and a comprehensive choice of colours, you have the flexibility to create any design you want. It is particularly ideal for multi-dwelling developments or traditional regional styles.

Cladding is a colourful and versatile weatherboard that offers the texture and natural beauty of timber while delivering the maintenance-free durability of fibre cement or PVCu.

Suitable for both classic and modern designs, our cladding products are highly versatile and can be used alongside traditional building materials such as brick, timber or stone. So whether your requirement is aesthetics, thermal insulation, renovation or decoration, external cladding offers a maintenance free, cost-effective surface solution.

We stock a variety of fibre cement and PVCu cladding that offer a range of benefits, including:

### Fibre cement features

- Low-maintenance, highly-durable
- Available in 11 unique colours
- Easy installation
- 10-year limited warranty
- Minimal waste of product
- A2 fire rating

### PVCu features

- Fixed vertically, horizontally or diagonally
- Available in four styles:

- Smooth Shiplap with 150mm coverage
- Smooth V-joint with 100mm coverage
- Textured 150mm and 300mm
- Featheredge 270mm embossed cladding board
- Smooth Shiplap and V-Joint systems available in all white and wood grain colours
- Embossed cladding systems are available in a wide range of colours to complement and enhance different installation and design applications
- A range of trims, covers & joints available in all styles

Using modern methods of construction, our Canopies can be pre-fabricated off-site, saving time and money. There are many benefits to using pre-fabricated components, for instance, high specification construction and a quality controlled factory environment.

The flexibility in design is vast. We can offer a complete design service for the GRP range of Canopies, Copings, Finials, Columns and Brackets.

With the GRP range we can supply the highest-quality products to match and add decorative appeal to your build whilst helping to keep costs down. Maintenance-free, fully weatherproof, easy-to-fix our GRP range is again designed to your specification.

We pride ourselves on innovative products that can supply solutions to the time, cost and sustainability of building today. We supply a range of standard or bespoke house GRP porches and bay window canopies in a variety of finishes that are quick and easy to install.

- Flat Canopies
- Apex Canopies
- Tiled Apex Canopies
- Tiled Mono-Pitch Canopies
- Slate Mono-Pitch Canopies
- Lead Canopies

Performance you can count on

The flat roofing market was revolutionised over 50 years ago with the introduction of EPDM membranes, now over 1.4 billion m<sup>2</sup> have been installed. Originally produced for the commercial flat roofing market, EPDM roofing has now become the perfect solution for domestic as well as commercial flat roofing projects.

FIX-R EPDM continues to supply the flat roofing market with a range of EPDM membrane sizes and thicknesses and innovative products, but one thing remains the same – the watertight performance, durability and dependability of FIX-R EPDM membranes.

Manufactured by the largest EPDM manufacturer, no other EPDM membrane can match the strong track record of the FIX-R EPDM flat roofing system. FIX-R EPDM has many material characteristics of longevity, weatherability and elasticity. FIX-R membranes are strong, lightweight, easily installed and are the perfect solution for flat roof renovation and new flat roof installations.

- 14% thicker than leading competitors' standard EPDM membranes
- Larger rolls means fewer seams, so faster installation and reduced labour costs

- Membrane widths of 3.05m, 4.57m, 6.1m, 7.63m & 9.15m
- Choice of thicknesses 1.20mm & 1.50mm
- Unmatched weatherability – highly flexible, resistant to ozone, UV radiation and extremes of temperature
- Pressure Sensitive (P.S.) accessories available for virtually any penetration or detail
- Little or no maintenance roofing system

Whether it's a small or large flat roof, a refurbishment or a new build, FIX-R is the right choice for you.

Introducing the new repair solution FIX-Rcryl with some clear advances in repair coating technology. Ready for use direct from the tin on:- Flat and Pitched Roofs, Bituminous Felt, Asphalt, Gutters, Concrete, Brickwork and Metal Surfaces.

### Benefits at a glance:

- Low odour\*
- Low VOC emissions less than 400g per litre
- Cold applied
- Easy to apply one coat solution
- Damp weather application
- Fibre reinforced to fill cracks and gaps
- Instant shower protection
- Unaffected by temperature
- Quick build up that won't sag on vertical surfaces
- High UV resistance and low colour change
- Will coat most surfaces
- Available in 5kg - Covers approx - 5-10m<sup>2</sup> & 20kg - Covers approx - 20-40m<sup>2</sup> in Black, Grey & White
