Assignment and Release

I the undersigned, certify that I (or my dependent) have insurance coverage as noted above and assign directly to the healthcare provider listed at the top of this form all insurance benefits, if any, otherwise payable to me for services rendered. I understand that I am financially responsible for all charges whether or not paid by insurance. I hereby authorize the healthcare provider to release all information necessary to secure the payment of benefits and to mail patient statements. I authorize the use of this signature on all insurance submissions.

MINNESOTA CENTER FOR PSYCHOLOGY, LLC
NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION.
PLEASE REVIEW IT CAREFULLY.

The law requires us to protect the privacy of your health information and to provide you with notice of our legal duties and privacy practices with respect to this health information. We are required to follow the terms of the Notice that is currently in effect. This Notice outlines our legal obligations regarding your health information and is effective as of February 2, 2010. We reserve the right to change the terms of this Notice and to make the new terms effective for all health information we possess. If this Notice is changed, we will post the revised Notice on our website and in our office, and we will give you a revised Notice upon request.

How We May Use or Disclose Your Health Information

The law allows us to use or disclose your health information for the following purposes:

1. *For Treatment.* We may use or disclose your health information to provide you with medical treatment or services. For example, a mental health practitioner may review your medical record and release medical information for a consultation or referral. We will get your written consent prior to making disclosures outside our practice for treatment purposes, except in emergency circumstances when it is not possible to get your consent.
2. *For Payment.* We may use and disclose your health information to receive payment for treatment that you receive. For example, we may send a bill to your health insurance company that describes the services we provided to you. We will get your written consent prior to making disclosures for payment purposes.
3. *For Health Care Operations.* We may use and disclose your health information for the operation of our practice. For example, we may share information with our staff or employees for training purposes or to assess the quality of care provided in our practice. We will get your written consent before making disclosures to others outside our practice for health care operations purposes.
4. *Communication with Family and Friends Involved in Your Care or Paying Your Bills.* If you are able to make your own health care decisions, we will ask your permission before sharing medical information about you. If you are unable to make health care decisions, our health care practitioners may disclose relevant information if they believe that doing so is in your best interests.
5. *Appointment Reminders.* We may use your information to send you reminders about future appointments.

6. *Notification.* We may disclose your health information to notify a family member, a personal representative, or other persons responsible for your care about your location or general condition.
7. *Public Health Agencies.* We may use or disclose your health information for public health activities such as assisting public health authorities in preventing or tracking disease. We may be permitted and/or required by law to report neglect, child abuse, or abuse of a vulnerable adult.
8. *Health and Safety.* Your health information may be disclosed to avert a serious threat to health or safety of you or any other person. Any disclosure would be only to someone able to help prevent the threat. Minnesota law imposes a duty to warn on certain mental health care providers if a person has communicated a specific, serious threat of physical violence against a specific person.
9. *Law Enforcement.* We will only release your medical information to law enforcement officials in response to a valid court order, a grand jury subpoena, or warrant, or with your written consent. We may release non-medical information about you to law enforcement if we are asked by law enforcement for the information, or as may be required by law. In addition, we may release non-medical information about you if you are suspected of committing a crime on the practice's premises.
10. *Research.* We may use and disclose your information for research purposes, either with your written authorization or otherwise consistent with applicable law. Minnesota law may require consent before your information can be released to an outside researcher. We will make a good faith effort to obtain your consent or refusal, as required by law, prior to releasing any identifiable information about you to outside researchers.
11. *Health Oversight.* We may disclose your information to a health oversight agency for activities authorized by law, including audits and investigations, in order for the government to monitor health care programs and compliance with laws. Minnesota law requires that patient-identifying information be removed from most disclosures for these purposes, unless you have provided us with written consent.
12. *Lawsuits/Disputes.* If you are involved in a lawsuit or dispute, we may disclose information about you in response to a court order, a grand jury subpoena, a warrant, with your written consent, or as otherwise required by law.
13. *National Security, Intelligence, and Protective Services for the President and Others.* We will release medical information about you to authorized federal officials for intelligence, counter-intelligence, national security

activities, and protective services for the President or other authorized persons or foreign heads of state only as required by law or with your written consent.

14. *Decedents.* Health information may be disclosed to funeral directors, coroners, or medical examiners in the case of certain types of death for the purpose of identifying a deceased person, determining a cause of death or other purpose, in accordance with applicable law.
15. *Workers' Compensation.* Your information may be used or disclosed in order to comply with laws and regulations related to Worker's Compensation. Minnesota law permits disclosure of your information to the parties involved in the claim, without specific written consent, if the information is related to a workers' compensation claim.
16. *Business Associates.* We may disclose your information to a business associate to perform functions on our behalf, if the business associate has signed an agreement to protect the confidentiality of the information.
17. *As Required by Law.* We may use and disclose your health information as otherwise required by law.

Other uses and disclosures will be made only with your written authorization, which you may revoke, except to the extent we have already acted upon the authorization. We are required to retain records of care provided to you.

Your Rights Regarding Your Health Information

You have the following rights with respect to your health information. If you would like to exercise any of these rights or if you have questions regarding your rights, please contact:

Privacy Officer
Minnesota Center for Psychology
Phone: (651) 644-4100

1. *You have the right to request that we limit our uses and disclosures of your health information.* Requests must be in writing, and you must tell us what information you wish to limit; whether you want to limit our use, our disclosure, or both; and to whom you want the limits to apply. If you pay out-of-pocket in full for an item or service, then you may request that we not disclose information pertaining solely to such item or service to your health plan for purposes of payment or health care operations. We are required to agree with such a request. However, we are not required to agree to any other request.
2. *You have the right to request that we communicate with you through alternative*

means or locations. We will respect any reasonable requests. Requests must be in writing, and you must specify how and where you wish to be contacted. We may require you to provide information about how payment will be handled.

3. *You have the right to review and obtain a copy of your health information.* We may charge you a fee for the cost of providing you with such a copy. Requests must be in writing. If we maintain your health information in an electronic health record, you have the right to receive a copy of your health information in electronic form. You may also direct us to provide such electronic health information directly to an entity or person clearly and specifically designated by you in writing. We may deny your request in limited circumstances, such as if the disclosure will be harmful to your health. In such cases, we may supply the information to a third party who may release the information to you. You may have a denial reviewed by another health care professional chosen by the practice, and we will comply with the outcome of that review.
4. *You have the right to request that we amend your health information.* Requests must be in writing, and we may deny your request if it does not include a reason to support the request. We may also deny a request if you ask us to amend information that: was not created by us; is not part of the medical information kept by us; is not information you would be permitted to inspect and copy; or is already accurate and complete.
5. *You have the right to obtain an accounting of disclosures of your health information, except disclosures: for treatment, payment, or health care operations; authorized by you; for national security or intelligence; or to correctional institutions and law enforcement with custody of you.* Requests must be in writing and may not go back more than six years. You may receive one free accounting in any 12-month period; we will charge you for additional requests.
6. *You have the right to receive a paper copy of this Notice.*

Complaints

You may complain to us if you think we have violated your privacy rights. You will not be retaliated against for bringing a complaint. Direct complaints to:

Minnesota Center for Psychology
2324 University Avenue, Suite 120
St. Paul, Minnesota 55114
Phone: (651) 644-4100

You can also file a complaint with the Department of Health and Human Services, Office for Civil Rights.

PATIENT RIGHTS AND RESPONSIBILITIES

Our commitment is to provide quality mental health services to all individuals without regard to race, color, religion, national origin, gender, age, sexual orientation, or disability.

Patients have the right to:

- be treated with courtesy and respect
- appropriate medical and personal care based on individual needs
- receive full information from the potential treating professional about that professional's knowledge, experience, credentials
- be informed about diagnoses and the options available for treatment interventions and effectiveness and risks of the recommended treatment
- have the information they disclose to their mental health provider kept confidential within the limits of state and federal law
- participate meaningfully in the planning, implementation and termination or referral of their treatment and if they wish, to include a family member or other chosen representative in planning their care
- be cared for with reasonable regularity and continuity of staff assignment as far as facility policy allows
- freedom from maltreatment
- refuse treatment or participation in experimental research
- discuss concerns or questions about the mental health services they receive with their provider
- know costs of treatment services
- confidential treatment of their personal and medical records and may approve or refuse their release to any individual outside the facility within the limits of state and federal law
- a prompt and reasonable response to their questions and requests
- consideration of their privacy, individuality, and cultural identity as related to their social, religious, and psychological well-being

Minnesota Patients' Bill of Rights

Legislative Intent

It is the intent of the Legislature and the purpose of this statement to promote the interests and well-being of the patients of health care facilities. No health care facility may require a patient to waive these rights as a condition of admission to the facility. Any guardian or conservator of a patient or, in the absence of a guardian or conservator, an interested person, may seek enforcement of these rights on behalf of a patient. An interested person may also seek enforcement of these rights on behalf of a patient who has a guardian or conservator through administrative agencies or in probate court or county court having jurisdiction over guardianships and conservatorships. Pending the outcome of an enforcement proceeding the health care facility may, in good faith, comply with the instructions of a guardian or conservator. It is the intent of this section that every patient's civil and religious liberties, including the right to independent personal decisions and knowledge of available choices, shall not be infringed and that the facility shall encourage and assist in the fullest possible exercise of these rights.

Definitions

For the purposes of this statement, "patient" means a person who is admitted to an acute care inpatient facility for a continuous period longer than 24 hours, for the purpose of diagnosis or treatment bearing on the physical or mental health of that person. "Patient" also means a minor who is admitted to a residential program as defined in Section 7, Laws of Minnesota 1986, Chapter 326. For purposes of this statement, "patient" also means any person who is receiving mental health treatment on an out-patient basis or in a community support program or other community-based program.

Public Policy Declaration

It is declared to be the public policy of this state that the interests of each patient be protected by a declaration of a patient's bill of rights which shall include but not be limited to the rights specified in this statement.

1. Information about Rights

Patients shall, at admission, be told that there are legal rights for their protection during their stay at the facility or throughout their course of treatment and maintenance in the community and that these are described in an accompanying written statement of the applicable rights and responsibilities set forth in this section. In the case of patients admitted to residential programs as defined in Section 7, the written statement shall also describe the right of a person 16 years old or older to request release as provided in Section 253B.04, Subdivision 2, and shall list the names and telephone numbers of individuals and organizations that provide advocacy and legal services for patients in residential programs. Reasonable accommodations shall be made for those with communication impairments, and those who speak a language other than English. Current facilities policies, inspection findings of state and local health authorities, and further explanation of the written statement of rights shall be available to patients, their guardians or their chosen representatives upon reasonable request to the administrator or other designated staff person, consistent with chapter 13, the Data Practices Act, and Section 626.557, relating to vulnerable adults.

2. Courteous Treatment

Patients have the right to be treated with courtesy and respect for their individuality by employees of or persons providing service in a health care facility.

3. Appropriate Health Care

Patients shall have the right to appropriate medical and personal care based on individual needs. This right is limited where the service is not reimbursable by public or private resources.

4. Physician's Identity

Patients shall have or be given, in writing, the name, business address, telephone number, and specialty, of any, of the physician responsible for coordination of their care. In cases where it is medically inadvisable, as documented by the attending physician in a patient's care record, the information shall be given to the patient's guardian or other person designated by the patient as his or her representative.

5. Relationship with Other Health Services

Patients who receive services from an outside provider are entitled, upon request, to be told the identity of the provider. Information shall include the name of the outside provider, the address, and a description of the service which may be rendered. In cases where it is medically inadvisable, as documented by the attending physician in a patient's care record, the information shall be given to the patient's guardian or other person designated by the patient as his or her representative.

6. Information about Treatment

Patients shall be given by their physicians complete and current information concerning their diagnosis, treatment, alternatives, risks and prognosis as required by the physician's legal duty to disclose. This information shall be in terms and language the patients can reasonably be expected to understand. Patients may be accompanied by a family member or other chosen representative, or both. This information shall include the likely medical or major psychological results of the treatment and its alternatives. In cases where it is medically inadvisable, as documented by the attending physician in a patient's medical record, the information shall be given to the patient's guardian or other person designated by the patient as his or her representative. Individuals have the right to refuse this information.

Every patient suffering from any form of breast cancer shall be fully informed, prior to or at the time of admission and during her stay, of all alternative effective methods of treatment of which the treating physician is knowledgeable, including surgical, radiological, or chemotherapeutic treatments or combinations of treatments and the risks associated with each of those methods.

7. Participation in Planning Treatment

Notification of Family Members:

(a) Patients shall have the right to participate in the planning of their health care. This right includes the opportunity to discuss treatment and alternatives with individual caregivers, the opportunity to request and participate in formal care conferences, and the right to include a family member or other chosen representative, or both. In the event that the patient cannot be present, a family member or other representative chosen by the patient may be included in such conferences. A chosen representative may include a doula of the patient's choice.

(b) If a patient who enters a facility is unconscious or comatose or is unable to communicate, the facility shall make reasonable efforts as required under paragraph (c) to notify either a family member or a person designated in writing by the patient as the person to contact in an emergency that the patient has been admitted to the facility. The facility shall allow the family member to participate in treatment planning, unless the facility knows or has reason to believe the patient has an effective advance directive to the contrary or knows the patient has specified in writing that they do not want a family member included in treatment planning. After notifying a family member but prior to allowing a family member to participate in treatment planning, the facility must make reasonable efforts, consistent with reasonable medical practice, to determine if the patient has executed an advance directive relative to the patient's health care decisions. For purposes of this paragraph, "reasonable efforts" include:

- (1) examining the personal effects of the patient;
- (2) examining the medical records of the patient in the possession of the facility; (3) inquiring of any emergency contact or family member contacted whether the patient has executed an advance directive and whether the patient has a physician to whom the patient normally goes for care; and
- (4) inquiring of the physician to whom the patient normally goes for care, if known, whether the patient has executed an advance directive. If a facility notifies a family member or designated emergency contact or allows a family member to participate in treatment planning in accordance with this paragraph, the facility is not liable to the patient for damages on the grounds that the notification of the family member or emergency contact or the participation of the family member was improper or violated the patient's privacy rights.

(c) In making reasonable efforts to notify a family member or designated emergency contact, the facility shall attempt to identify family members or a designated emergency contact by examining the personal effects of the patient and the medical records of the patient in the possession of the facility. If the facility is unable to notify a family member or designated emergency contact within 24 hours after the admission, the facility shall notify the county social service agency or local law enforcement agency that the patient has been admitted and the facility has been unable to notify a family member or designated emergency contact. The county social service agency and local law enforcement agency shall assist the facility in identifying and notifying a family member or designated emergency contact. A county social service agency or local law enforcement agency that assists a facility is not liable to the patient for damages on the grounds that the notification of the family member or emergency contact or the participation of the family member was improper or violated the patient's privacy rights.

8. Continuity of Care

Patients shall have the right to be cared for with reasonable regularity and continuity of staff assignment as far as facility policy allows.

9. Right to Refuse Care

Competent patients shall have the right to refuse treatment based on the information required in Right No. 6. In cases where a patient is incapable of understanding the circumstances but has not been adjudicated incompetent, or when legal requirements limit the right to refuse treatment, the conditions and circumstances shall be fully documented by the attending physician in the patient's medical record.

10. Experimental Research

Written, informed consent must be obtained prior to patient's participation in experimental research. Patients have the right to refuse participation. Both consent and refusal shall be documented in the individual care record.

11. Freedom from Maltreatment

Patients shall be free from maltreatment as defined in the Vulnerable Adults Protection Act. Maltreatment means conduct described in Section 626.5572, Subdivision 15, or the intentional and nontherapeutic infliction of physical pain or injury, or any persistent course of conduct intended to produce mental or emotional distress. Every patient shall also be free from nontherapeutic chemical and physical restraints, except in fully documented emergencies, or as authorized in writing after examination by a patients' physician for a specified and limited period of time, and only when necessary to protect the patient from self-injury or injury to others.

12. Treatment Privacy

Patients shall have the right to respectfulness and privacy as it relates to their medical and personal care program. Case discussion, consultation, examination, and treatment are confidential and shall be conducted discreetly. Privacy shall be respected during toileting, bathing, and other activities of personal hygiene, except as needed for patient safety or assistance.

13. Confidentiality of Records

Patients shall be assured confidential treatment of their personal and medical records, and may approve or refuse their release to any individual outside the facility. Copies of records and written information from the records shall be made available in accordance with this subdivision and Section 144.335. This right does not apply to complaint investigations and inspections by the department of health, where required by third party payment contracts, or where otherwise provided by law.

14. Disclosure of Services Available

Patients shall be informed, prior to or at the time of admission and during their stay, of services which are included in the facility's basic per diem or daily room rate and that other services are available at additional charges. Facilities shall make every effort to assist patients in obtaining information regarding whether the Medicare or Medical Assistance program will pay for any or all of the aforementioned services. 15. Responsive Service Patients shall have the right to a prompt and reasonable response to their questions and requests. 16. Personal Privacy Patients shall have the right to every consideration of their privacy, individuality, and cultural identity as related to their social, religious, and psychological well-being.

17. Grievances

Patients shall be encouraged and assisted, throughout their stay in a facility or their course of treatment, to understand and exercise their rights as patients and citizens. Patients may voice grievances and recommend changes in policies and services to facility staff and others of their choice, free from restraint, interference, coercion, discrimination, or reprisal, including threat of discharge. Notice of the grievance procedure of the facility or program, as well as addresses and telephone numbers for the Office of Health Facility Complaints and the area nursing home ombudsman pursuant to the Older Americans Act, Section 307 (a)(12) shall be posted in a conspicuous place.

Every acute care in-patient facility, every residential program as defined in Section 7, and every facility employing more than two people that provides out-patient mental health services shall have a written internal grievance procedure that, at a minimum, sets forth the process to be followed; specifies time limits, including time limits for facility response; provides for the patient to have the assistance of an advocate; requires a written response to written grievances; and provides for a timely decision by an impartial decision-maker if the grievance is not otherwise resolved. Compliance by hospitals, residential programs as defined in Section 7 which are hospital-based primary treatment programs, and outpatient surgery centers with Section 144.691 and compliance by health maintenance organizations with Section 62D.11 is deemed to be in compliance with the requirement for a written internal grievance procedure.

18. Communication Privacy

Patients may associate and communicate privately with persons of their choice and enter and, except as provided by the Minnesota Commitment Act, leave the facility as they choose. Patients shall have access, at their expense, to writing instruments, stationery, and postage. Personal mail shall be sent without interference and received unopened unless medically or programmatically contraindicated and documented by the physician in the medical record. There shall be access to a

telephone where patients can make and receive calls as well as speak privately. Facilities which are unable to provide a private area shall make reasonable arrangements to accommodate the privacy of patients' calls. This right is limited where medically inadvisable, as documented by the attending physician in a patient's care record. Where programmatically limited by a facility abuse prevention plan pursuant to the Vulnerable Adults Protection Act, Section 626.557, Subdivision 14, Paragraph (b), this right shall also be limited accordingly.

19. Personal Property

Patients may retain and use their personal clothing and possessions as space permits, unless to do so would infringe upon rights of other patients, and unless medically or programmatically contraindicated for documented medical, safety, or programmatic reasons. The facility may, but is not required to, provide compensation for or replacement of lost or stolen items.

20. Services for the Facility

Patients shall not perform labor or services for the facility unless those activities are included for therapeutic purposes and appropriately goal-related in their individual medical record.

21. Protection and Advocacy Services

Patients shall have the right of reasonable access at reasonable times to any available rights protection services and advocacy services so that the patient may receive assistance in understanding, exercising, and protecting the rights described in this Section and in other law. This right shall include the opportunity for private communication between the patient and a representative of the rights protection service or advocacy service.

22. Right to Communication Disclosure and Right to Associate

Upon admission to a facility, where federal law prohibits unauthorized disclosure of patient identifying information to callers and visitors, the patient, or the legal guardian or conservator of the patient, shall be given the opportunity to authorize disclosure of the patient's presence in the facility to callers and visitors who may seek to communicate with the patient. To the extent possible, the legal guardian or conservator of the patient shall consider the opinions of the patient regarding the disclosure of the patient's presence in the facility.

The patient has the right to visitation by an individual the patient has appointed as the patient's health care agent under chapter 145C and the right to visitation and health care decision making by an individual designated by the patient under paragraph 22.

Upon admission to a facility, the patient or the legal guardian or conservator of the patient, must be given the opportunity to designate a person who is not related who will have the status of the patient's next of kin with respect to visitation and making a health care decision. A designation must be included in the patient's health record. With respect to making a health care decision, a health care directive or appointment of a health care agent under chapter 145C prevails over a designation made under this paragraph. The unrelated person may also be identified as such by the patient or by the patient's family.

ADDITIONAL RIGHTS IN RESIDENTIAL PROGRAMS THAT PROVIDE TREATMENT TO CHEMICALLY DEPENDENT OR MENTALLY ILL MINORS OR IN FACILITIES PROVIDING SERVICES FOR EMOTIONALLY DISTURBED MINORS ON A 24-HOUR BASIS:

23. Isolation and Restraints

A minor patient who has been admitted to a residential program as defined in Section 7 has the right to be free from physical restraint and isolation except in emergency situations involving likelihood that the patient will physically harm the patient's self or others. These procedures may not be used for disciplinary purposes, to enforce program rules, or for the convenience of staff. Isolation or restraint may be used only upon the prior authorization of a physician, psychiatrist, or licensed consulting psychologist, only when less restrictive measures are ineffective or not feasible and only for the shortest time necessary.

24. Treatment Plan

A minor patient who has been admitted to a residential program as defined in Section 7 has the right to a written treatment plan that describes in behavioral terms the case problems, the precise goals of the plan, and the procedures that will be utilized to minimize the length of time that the minor requires inpatient treatment. The plan shall also state goals for release to a less restrictive facility and follow-up treatment measures and services, if appropriate. To the degree possible, the minor patient and his or her parents or guardian shall be involved in the development of the treatment and discharge plan.

Diagnostic Assessment Consent Form

Please read the following carefully and sign below, indicating that you have read, understand, and agree to the terms of the Diagnostic Assessment Appointment:

1. This appointment is for a diagnostic assessment, to determine which, if any, services are clinically recommended at this time. This is not a "Consent for Treatment" agreement. This assessment does not establish a therapeutic relationship with the assessment clinician or any other clinician at MCP.
2. The assessment clinician will provide clinical recommendations based on the results of the assessment. These recommendations may or may not include receiving services from the assessment clinician.
3. It is possible that the type of therapy/services that you are seeking may not be recommended for you based on the results of the assessment. The clinician performing the assessment will provide recommendations for services, if needed. Neither MCP nor the assessment clinician is responsible for providing other services for you if the type of therapy/services you are seeking is not recommended.
4. You are responsible for any charges not covered by your insurance (co-payments, co-insurance, deductible, etc.) If you receive a bill for services, payment is expected within 30 days. If you are unable to pay the amount in full by 30 days, you must set up a payment agreement with your clinician(s). In the event that there is an unpaid balance or you do not adhere to the payment agreement, after 90 days, your account may be sent to collections.
5. Please arrive at your assessment appointment 10 minutes prior to the appointment time with all required paperwork complete. Proof of insurance is required at all appointments at MCP. If you do not follow these guidelines, you may not be able to see the assessment clinician at your scheduled appointment time.
6. If you need to cancel the assessment appointment, please do so at least 24 hours prior to the appointment time to avoid a possible charge.

PATIENT CONSENT TO THE USE AND DISCLOSURE OF HEALTH INFORMATION FOR TREATMENT, PAYMENT, OR HEALTH OPERATIONS

I understand that as part of my/my child's healthcare, Minnesota Center for Psychology, LLC creates and maintains a paper and/or electronic record describing my/my child's health history, symptoms, assessment and test results, diagnoses, treatment, discharge information, and any plans for future care. I understand that this information serves as:

- A basis for documenting and planning patient care and treatment
- A means of communication and coordination among the healthcare professionals who contribute to a patient's care
- A source of information for billing purposes if a patient is using medical insurance
- A means by which a third-party payer can verify that services were actually provided
- A tool for routine healthcare operations

I have received a Notice of Privacy Practices that provides a more complete description of information uses and disclosure.

I understand that I may revoke this consent in writing, except to the extent that action has already been taken. I also understand that by declining the terms of this consent or revoking this consent, this organization may refuse to treat me/my child as permitted by section 164.506 of the Codes of Federal Regulations.

I further understand that Minnesota Center for Psychology, LLC reserves the right to change their Notice of Privacy Policy Practices. Should Minnesota Center for Psychology, LLC change their notice, a revised copy will be available in the office and will be posted at the front desk and on the organization's website.

I understand that as part of this organization's treatment, payment, and/or healthcare operations, it may become necessary to disclose my/my child's protected health information to another entity. I consent to such disclosure for these permitted uses, including disclosures via fax.

By signing below, I indicate that I have read, understand, and accept the terms of this consent.

AGREEMENT ON SERVICES WHICH MAY NOT BE COVERED BY INSURANCE

My provider may bill the insurance company as a courtesy to me, and I may subsequently receive notice from the insurance company that all or part of these charges is considered by them to be "uncovered services" (deductibles, co-payments, co-insurance, etc.).

However, I understand and acknowledge in advance that I am seeking these services knowing that they may not be covered. I agree to cover the full cost, less any insurance payment. I know that these or similar services may be covered by my insurance company, or covered at a higher rate, if I use providers within my network. I understand that it is my responsibility to know my insurance plan and that I am responsible for knowing what and how much my insurance carrier will cover.

I agree to notify the clinic immediately if my insurance changes or is terminated. I will also update the clinic immediately regarding any changes of address or telephone number.

I understand that I am expected to attend all scheduled appointments or cancel them with 24-hour notice. If I do not do this, I understand that I may be charged a "no show" or "late cancel" fee (the fee does not apply to MA, Medicare clients).

Communicable Disease/Parasitic Infestation Policy

Minnesota Center for Psychology (MCP) does not permit clients to attend individual or group appointments if they are currently experiencing a communicable disease or parasitic infestation. The purpose of this policy is to protect the health and safety of our clients, providers and employees.

If, during the course of treatment at MCP, you are diagnosed with, or suspected of having a communicable disease or parasitic infestation, you must notify your therapist immediately. **Clients will not be permitted to return to the clinic until they can provide proof from a medical professional that you are no longer contagious, or proof that you/your home are free from parasites.**

Communicable diseases include, but are not limited to, measles, mumps, rubella, chicken pox, shingles, influenza, viral hepatitis-A (infectious hepatitis), leprosy, meningitis, Severe Acute Respiratory Syndrome (SARS) and active tuberculosis. MCP may choose to broaden this definition within its best interest and in accordance with information received through the Centers for Disease Control and Prevention (CDC). Parasites include, but are not limited to, head lice, body lice, bed bugs, fleas, ticks and mites (scabies).

By signing this policy, you are attesting that you do not currently have a communicable disease or parasitic infestation. You also agree that if, at any time during the course of your treatment at MCP, you are diagnosed with, or suspected of having a communicable disease or parasitic infestation, you will disclose this information to MCP/your therapist immediately.

Notes:		

WHODAS 2.0 12-Item version, self-administered

(Required by MN Dept. of Human Services as of 10/1/2014)

This questionnaire asks about difficulties due to health conditions. Health conditions include diseases or illnesses, other health problems that may be short or long lasting, injuries, mental or emotional problems, and problems with alcohol or drugs.

Think back over the past 30 days and answer these questions, thinking about how much difficulty you had doing the following activities. For each question, please circle only one response.

In the past 30 days, how much difficulty did you have in:						
S1	Standing for long periods such as 30 minutes?	None	Mild	Moderate	Severe	Extreme or cannot do
S2	Taking care of your household responsibilities?	None	Mild	Moderate	Severe	Extreme or cannot do
S3	Learning a new task, for example, learning how to get to a new place?	None	Mild	Moderate	Severe	Extreme or cannot do
S4	How much of a problem did you have joining in community activities (for example, festivities, religious or other activities) in the same way as anyone else can?	None	Mild	Moderate	Severe	Extreme or cannot do
S5	How much have you been emotionally affected by your health problems?	None	Mild	Moderate	Severe	Extreme or cannot do
S6	Concentrating on doing something for 10 minutes?	None	Mild	Moderate	Severe	Extreme or cannot do
S7	Walking a long distance such as a kilometer (or equivalent)?	None	Mild	Moderate	Severe	Extreme or cannot do
S8	Washing your whole body?	None	Mild	Moderate	Severe	Extreme or cannot do
S9	Getting dressed?	None	Mild	Moderate	Severe	Extreme or cannot do
S10	Dealing with people you do not know?	None	Mild	Moderate	Severe	Extreme or cannot do
S11	Maintaining a friendship?	None	Mild	Moderate	Severe	Extreme or cannot do
S12	Your day-to-day work?	None	Mild	Moderate	Severe	Extreme or cannot do

H1	Overall, in the past 30 days, how many days were these difficulties present?	Record number of days _____
H2	In the past 30 days, for how many days were you totally unable to carry out your usual activities of work because of any health condition?	Record number of days _____
H3	In the past 30 days, not counting the days that you were totally unable, for how many days did you cut back or reduce your usual activities or work because of any health condition?	Record number of days _____

I certify that I have answered these questions to the best of my knowledge.
