

Offering Appsolute Protection

LightSYS™2 is the only hybrid security system that offers Smartphone App control and communication flexibility as well as your choice of wired, 2-way wireless, or RISCO Bus detectors.

- The Smartphone App transforms the security system into an appealing tool for home and small business owners
- 2-way wireless sounders, slim keypads and detectors ease your installation and enhance your offering
- RISCO Bus saves you cabling and labour costs and enables remote service, as detectors are installed in series on the system Bus and can be remotely configured and diagnosed
- Communication flexibility includes IP, GSM/GPRS, PSTN and STU Adaptor, all installed within the main housing

Professional installation and monitoring station companies around the globe choose LightSYS™2 for their small commercial and residential installations.

LightSYS™ Architecture

Smartphone App

Home and small business owners can now enjoy the iRISCO Smartphone App for smart and easy control of their LightSYS™2 system. The revolutionary app enables users to set/unset the system on-the-go, view a history of events, activate home automation devices, omit detectors, view the system's status and history, and much more. Available for iPhone, iPad and Android.

Web Application

RISCO Group's web application enables home and small business owners to monitor, control and configure their LightSYS™2 system via a web browser. In addition to the capabilities of the iRISCO Smartphone app, users can use the web application to register their system, add users and more. The application is powered by the RISCO Cloud server at www.riscocloud.com

Wired, 2-Way Wireless or RISCO Bus Detectors - The Choice is Yours

RISCO Bus Detectors & Sounders

- Save on cable and labour costs
- Remote programming and service
- Reduce expenses on zone expanders

WatchOUT™ Extreme

- RISCO's award winning reliable outdoor detector with unique RISCO technologies
- The only outdoor detector with 2 microwave and 2 PIR channels

WatchIN™

- 2 MW and 2 PIR channels with unique RISCO technologies
- Ideal for harsh industrial and commercial indoor environments

Industrial LuNAR™

- High ceiling mount detector up to 8.6m (28') with 18m (60') diameter coverage
- Ideal for warehouses

BWare & iWISE® Bus

- RISCO Bus versions of BWare & iWISE® DT and Quad detectors
- Include extra relay zone input, saving cabling to the panel

Seismic Detector

- The ultimate choice for protecting safes, ATMs and vending machines
- Comes with mounting plate, external test generator, and anti-drilling shield as standard

Lumin8™

- Professional sounder with illuminator for your logo
- Twin Piezo sounder and Surface Light Technology strobe

Note - The above RISCO Bus Detectors and Sounders can also be installed as regular wired relay devices, except BWare & iWISE® Bus which are designed for Bus installation only.

Wired Relay Detectors

BWare

- RISCO's state-of-the-art detector series with K-band microwave and unique RISCO detection technologies
- Convex lens improves catch performance

iWISE®

- RISCO's field proven detector series with built-in EOL resistors
- DT, QUAD and DT Pet models

LuNAR™

- 360° ceiling mount up to 4m (13') high, 12m (40') diameter coverage
- Slim design fits any decor

DigiSense™

- Digital detector series with built-in EOL resistors
- DT, QUAD and Pet models

ShockTec™ Plus

- For reliable 24 hour perimeter shock detection
- With or without door/window contact on separate zone

ViTRON™ Plus

- Provides reliable 24 hour glassbreak detection
- Dual frequency pattern recognition

Wired Flood Detector

- Sounds alarm in case of flooding above the sensor level
- IP67 environmental rating

1 & 2-Way Wireless Accessories

Security

Wireless WatchOUT™

- Reliable outdoor volumetric detection with 2 PIR channels
- 12m (40') wide-angle coverage, IP65 rating

Wireless Barrier Beams

- Active infrared Barrier Beams for reliable perimeter detection with unique technologies
- Direct sunlight immunity, low battery consumption, front mounting modules, barrier height up to 2.7m (9')

Wireless iWAVE™

- PIR with simple bracket to wall installation
- 15m range for PIR, 12m for pet friendly model

Wireless iWISE®

- PIR with creep zone
- 15m range for PIR, 8m for pet friendly model

Wireless Door/Window Contacts

- Defeats large magnets by signaling tamper
- Higher security, dual zone, and shutter pulse models

Wireless Shock & Shock + Contact

- For reliable 24 hour perimeter shock detection
- With or without door/window contact on separate zone

Wireless Glassbreak

- Provides reliable 24 hour glassbreak detection
- Dual frequency pattern recognition

Wireless Sounders

- Fully wireless outdoor and indoor sounders
- Variety of designs and strobe colours to suit your needs

Home Safety

Wireless Smoke & Heat Detector

- Smoke and/or heat detection
- 1-way or 2-way wireless selectable by dipswitch

Wireless CO Detector

- Detects carbon monoxide buildup
- Includes internal sounder

Wireless Gas Detector

- Detects presence of cooking/heating gas - butane, propane and methane (natural gas)
- Requires local power, includes internal sounder

Wireless Flood Detector

- Sounds alarm in case of flooding above the sensor level
- 2.4m (8') cable between flood sensor and wireless transmitter

Wireless Keypads, Keyfobs and Panic Transmitters

2-Way Wireless Slim Keypad

- Allows outdoor or indoor end-user control

2-Way Remote Control

- Multi colour LED indication for system status
- PIN code for higher security

Wristband Panic Transmitter

- Stylish design, can also be worn as a pendant
- Water resistant IP67 rating

2-Button Panic Keyfob

- Prevents false panic alarms - triggers only when both buttons are depressed together
- Keyring or belt mounting

4 Button Keyfobs

- Rolling code technology or zone assignment
- Button functionality programmable to set, unset, stay, panic and output activation

LightSYS™ Technology - Leading You to Success

LightSYS™ Specifications

Zones	8 - 32 wired, wireless or RISCO Bus, in any combination
Partitions	4
Groups per partition	4
EOL Zone resistance	Fully selectable
Remote zone diagnostics	Voltage and resistance measurement on all wired zones
Zone loop response	1msec, 10msec, 400 msec, 1 sec, 1/2 hour to 4 hours
Additional inputs	Bell tamper, Box tamper
Programmable outputs	4 onboard (3*100mA opto-relays + 1A relay) expandable to 14
User codes	16
Event log	500
Wired Keypads	4 wired
2-Way Wireless Keypads	4 (2-way wireless slim keypads)
Wireless Keyfobs	16 (1-way or 2-way wireless keyfobs)
Proximity Key Readers	8
Follow-me destinations	16
Communication	PSTN onboard Plug-on IP or Modem Plug on GSM/GPRS STU Adaptor
End User Features	New - Smartphone apps and web browser for set/unset, control and monitoring the system • SMS: Event notification and remote control • Audio: Event messages, full touch-tone remote control with voice menu guide, two-way audio for remote listen-in and speak-in • Email: Event notification
Reporting formats	Contact ID, SIA with or without text, IP/GSM Receiver
PC Cable connector	RS232 for Configuration Software
PS Input	100-240 VAC, 50-60Hz
PS Output	14.4 VDC / 1.5A (14.4 / 4A PS for metal housing)
Polycarbonate housing	288mm x 254mm x 90mm (11.3" x 10.0" x 3.54") Place for Main, Power Supply, 7Ah Battery, GSM/GPRS, IP module or Modem, 2 expansion modules (wireless expander, voice module, zone expanders, output expanders)
Large Metal housing	420mm x 380mm x 95mm (16.5" x 15.0" x 3.75") Place for 4A PS, STU Adaptor, 17AH Battery, GSM/GPRS, IP module or Modem, 2 expansion modules (voice module, zone expanders, output expanders)

Specifications are subject to change without prior notice
EN50131 Security Grade 2, PD6662:2010 Compliant
