# H&C® METALLICS BEAUTIFULLY RESTORES ST. JOHN'S CHURCH

St. John the Baptist Catholic Church was built in 1907 and began much needed renovations in 2014. Located just outside of Baton Rouge, Louisiana, St. John trusted Three O1 Flooring and H&C Decorative Concrete to beautify, brighten and restore their beloved space.

St. John chose the hottest trend in concrete and masonry stone surfaces to modernize their space and provide elegant effects and durability for the parish center.

The dramatic look was created using the H & C PRO SERIES METALIC SYSTEM, featuring a durable basecoat, dynamic metallic coat and vibrant color options for a complete metallic flooring system.

## Metallic Flooring System

Leverage H&C technology to enhance your creative and artistic skills to produce metallic floors that are a work of art. With a durable basecoat, self-leveling epoxy with dynamic metallic pigments in vibrant color options and a choice of finishing topcoats, the H&C Metallic Flooring System provides all you'll need for maximum performance and beauty.

- Vibrant metallic pigments in a variety of colors
- Durable high-gloss finish for showroom results
- Self-leveling properties to achieve an even finish
- Chemical and impact resistant for maximum protection
- Complete system and sizes for all project needs
