# STREAMLINE

by e:thos®

---

Streamline means what it says, hitting the nail right on the head with this small compact range. With a 600mm projection WC in the range and a 490mm back to the wall pan, along with some elegant basins, this needs to be a first choice particularly for small en-suites and cloakrooms.

#### Items available

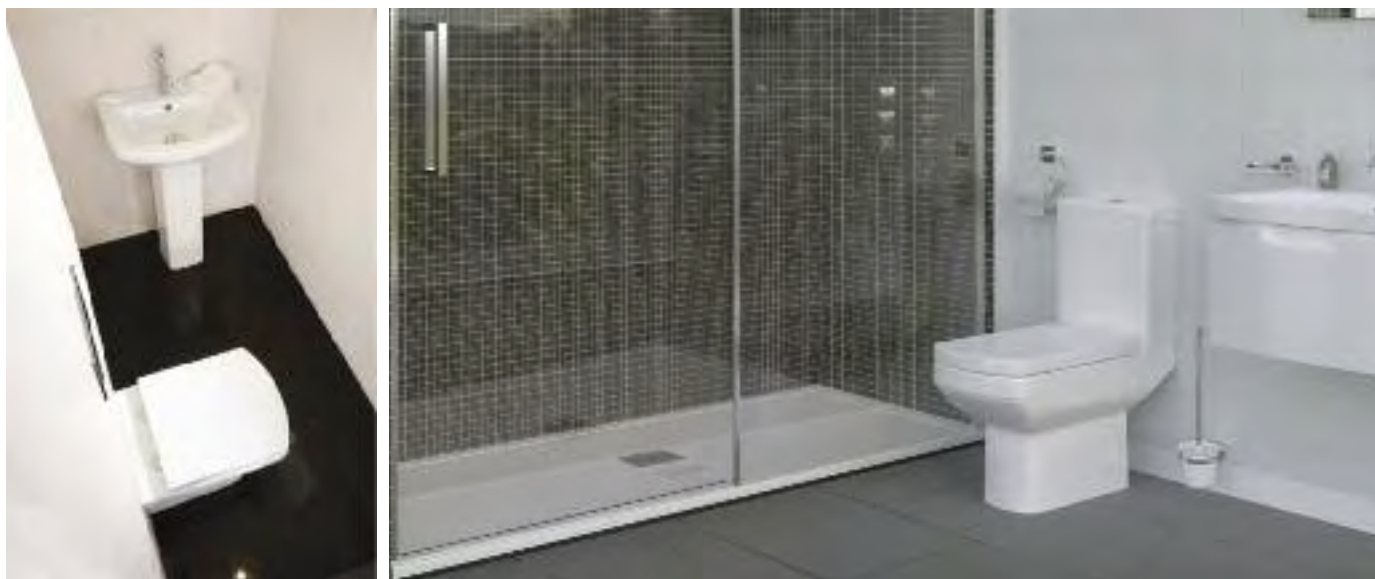

- ✓ Close coupled WC - short projection
- ✓ Back to wall WC - short projection
- ✓ 53cm basin
- ✓ 50cm basin
- ✓ 60cm basin
- ✓ Full pedestal
- ✓ Semi pedestal

# BATHING

by MODELLO<sup>®</sup>

---

If it's a steel or cast iron bath you are after,  
you have got the wrong brochure!

If it's a bath that offers the strength of  
steel or cast iron then continue  
through this section.

This Modello range complements  
and harmonises perfectly with the  
e:thos sanitaryware ranges.

# OVERBATH SCREENS by e:thos®

---

Let's be done with that old shower curtain shall we? Why not install one of our overbath shower screens that has been perfectly developed with a rise and fall hinge to ensure easy access in and out the bath and to make cleaning easier. Who said cleaning?.... Cleaning couldn't be easier with our easy clean glass surface which helps take out all the hard work.

# SHOWERPROOF PANELLING by

---

Aren't you just fed up and had enough of trying to keep clean those grout joints in your showering or bathing area? I'm sure you can think of better ways of spending your Saturday afternoon than scrubbing away thanklessly with all the cleaning materials in the world and still not get a satisfactory result.

Hydrowall is the answer!!

An absolute perfect solution to 'grubby grout', available in an excellent range of finishes and is extremely easy to install.

## HYDROWALL™

The showerproof alternative to tiles

### Features & benefits

- ✓ Range of contemporary colours to suit your bathroom
- ✓ Simple installation
- ✓ Can be used to cover existing tiling
- ✓ Fix directly to wall or to battens
- ✓ Offers an easy clean surface
- ✓ Reduces the number of joints over tiles and so prevents potential leaks
- ✓ Panels can be joined using extrusions to fit any size of shower enclosure or bathroom
- ✓ Offers an easy clean surface
- ✓ 2440mm high panels
- ✓ Extrusions 2500mm long

### Installation of Hydrowall

Hydrowall can be fixed directly to the wall or onto existing tiles if soundly secured to the underlying surface, they may also be fixed to battens secured to the wall.

In either case fix using a good quality high grab building adhesive, as listed below. The various wall profiles are to be fixed to the panels using a good quality silicone sanitaryware sealer, we would recommend that one is used with anti-fungal content, as also listed below.

### Hydrowall Panels

Code	Finish options	Width mm	Price
72-BSG120	① Hydrowall Bronze Slate GLOSS Panel	1200	£250.00

# ARCTIC MODULAR UNITS

Whatever size bathroom, en-suite or cloakroom, the Arctic range of contemporary high gloss white units will provide a solution for your storage needs.

The additional modular back to wall WC units provide the perfect solution for hiding and disguising pipework, which in turn provides an easy to maintain cleaning program.

# BRASSWARE TAPS

---

e:thos<sup>®</sup>

Simple, but affordable sums up our stunning e:thos range and collections. With the consumer always in our heart, we give you complete piece of mind with a full 2 year guarantee.

CARINO<sup>®</sup>

This prestigious and contemporary collection has it all. With a 10 year guarantee, extensively diverse range of brassware, the finest design and feel emanating from Italy, you will certainly create the 'wow' factor!

## Helpful Hints

We have included recommended pressures required for functionality of all our taps and brassware.

As a guide the following conversions equate:

-  0.1 bar = header tank to be 1 metre above shower head or tap
-  0.5 bar = header tank to be 5 metres above shower head or tap
-  1.0 bar = header tank to be 10 metres above shower head or tap
-  2.0 bar = header tank to be 20 metres above shower head or tap

# HEATED TOWEL

## RAILS by ethos®

---

We all agree that it is the finishing touches that make any room go from ordinary to 'WOW'. A heated towel rail always gives a bathroom, en-suite or cloakroom that extra look of elegance and brings the look up to date. You can choose from a wide array of stylish ladder radiators, either the Eco or the designer versions, or opt for the more traditional look of the Roxton. Most of these rails can also be electrically operated....a wise choice if you want to have nice warm towels in the summer when the central heating is turned off.

# the TOWEL RAIL collection

## Eco ladder towel rail

'Eco ladder towel rails have the option to be heated by connecting directly to the central heating system, independently electrically operated (which will require oil filling and an element), or dual fuelled. Dual fuelled simply means that via the 'T' piece connection that comes with the elements, you have the benefit of central heating operation in the winter months and electrical operation in the summer months'

# the TOWEL RAIL collection

## The stylish new Thermostatic Control Unit for towel rail heating elements

The power ON/OFF switch activates or deactivates the element.

This 2 hour boost switch switches the element onto full power for 2 hours then reverts back to the original setting.

Every press of this control decreases the temperature by 20%. This is shown by the LED lights decreasing from 5 to 1.

Every press of this control increases the temperature by 20%. This is shown by the LED lights increasing from 1 to 5.

e:thos<sup>®</sup>

85mm square IPX5 fully rated active LED display. Controls 150 watt to 800 watt elements

*'Have full control of your Towel Rail Electric Element by wiring directly into this Unique Exclusive Control Plate in the Bathroom'*

# BITS 'N' BOBS

---

Unfortunately, as with most things in life, there is the element of what is 'uninteresting'. This section will NOT excite you in the least, but is probably the most important section to ensure that your dream bathroom comes together and functions as you would expect. From bath wastes through to basin fixings, we have it covered!

## WALL HANGING FRAMES, CISTERNS AND FLUSH PLATES

### Why choose the e:thos system?

- All components pre-installed.
- Due to the compact frame we offer a solution for any construction situation.
- Easy changing from pneumatic to mechanical operation, and vice versa.
- Easy accessibility to the cistern.
- A great choice in design, material and application.
- Contemporary materials.
- 10 year product warranty and 25 year guarantee supply of spare parts.
- Excellent quality.
- Powerful flushing.

e:thos®

The e:thos XT toilet system

The e:thos XS toilet system

### e:thos XT toilet system

Our e:thos XT systems are only 38cm wide and allow either pneumatic or mechanical operation. The e:thos XT systems are available in two heights: 83cm and 98cm. You can choose between top or front control. The 83cm version is ideal in situations where you have limited space, for instance under a bathroom window. When installing the top control panel it allows you to open the toilet seat without covering the control.

### Flush Plates

# Planning grid

1 square = 100mm

## Notes and information to help design the correct bathroom for you

- Mark accurately the position of the toilet soil pipe
- Mark accurately the position of all windows and doors
- Note the direction the door opens
- Note the floor structure whether concrete or timber
- Note the type of hot water system in place
- Note the wall structures whether solid or stud partition
