...Exceptional Performance

Motion Detectors

All our detectors have been expertly designed to detect the movement of intruders whilst avoiding unwanted false alarms.

100 Series Detectors

Highly accurate detection performance with no compromise to false alarms. Multi-height optics allow mounting anywhere between 1.8m and 3.1m, with a coverage range of 15m. Standard PIR, Quad and Pet Friendly versions available. Grade 2.

200 Series Detectors

Digital signal processing provides superior detection performance and improved false alarm immunity. Interchangeable cartridges enable easy upgrading across the range. Standard PIR, Quad, Dual Technology and Pet Friendly versions available. Grade 2 and Grade 3 versions available.

300 Series Detectors

Anti-masking technology and additional wall tamper for heightened security. The superior choice for high-end residential and commercial installations. Anti-masking standard PIR, Quad, and Dual Technology versions available. Grade 3.

Door & Window Contact Detectors

These monitor the opening of doors, windows, cupboards, drawers etc. Visible or hidden/covert versions are available in 3 different colours.

Detectors

Cover every angle

Wireless Covert Accelerometer

Designed to protect your most valuable possessions, the W-ACC-C is discreet enough to be concealed in or on almost any item and signals an alarm when the object is moved.

Available in 3 different colours.

Ceiling Mount Detectors

Outstanding detection in a sleek and easy to install housing. The Orisec 360 detectors achieve the ultimate balance between detection performance and false alarm immunity.

Shock Detectors

Shock detectors monitor windows and doors for vibrations caused by attempted break-ins and will activate an alarm before an intruder gains entry to your property. Visible or hidden/covert versions are available in 3 different colours.

Fire & Flood Detectors

Each model in the Fire & Flood detector range can operate as a stand-alone detector with an integrated sounder. They can also be interlinked so that all detectors will sound in the event of a fire. Furthermore, the detectors can be integrated with all Orisec wireless devices so that activations can be reported via the control panel to a monitoring station or to our mobile phone apps.

External Sounder

This acts as a highly visible deterrent to inform potential intruders that your property is protected. It emits a 115-decibel alarm siren if your alarm system is triggered.

Illuminated Sounder

For an even greater security deterrent, illuminated versions are available to increase visibility during darkness.

External Sounder

First line of defence

4 easy ways for you and your employees to control your system

Keyfobs

Two and four button keyfobs with exceptional range and battery life. Allows you to remotely set/unset your alarm system. Can also be used to open and close garage doors/gates, trigger panic alarms, switch lights on and off and more.

Keypads

Enter your personal access code onto any one of an extensive range of keypads. A choice of finishes to suit any interior.

Control Panel

The command centre of your system, from 10 - 200 zones available, there is a panel to suit every property.

App

A range of iOS & Android Apps giving secure access to control panels. Allows you to remotely set/unset your alarm system

Prox Tags

Present the discreet, compact tag to any of our keypads or NFC Reader to simply and easily set and unset your system using NFC technology.

Simple Set/Unset
