

AO5000PRO

Perfect for larger areas with higher contaminants.

AHPCO & Bi-Polar Ionization Technology

Replicating Nature and The Sun

Whether it's with our NASA-backed AHPCO technology that uses UV light and a photo catalyst, or our Bi-Polar Ionization technology that utilizes electricity to produce positive and negative ions...our purifiers work by creating ions that actively attack pollutants in the air and on surfaces and break them down. These ions then revert back to harmless water vapor, resulting in nothing but pure, clean air, free of nearly all odor- and illness-causing bacteria and particles.

Product Specifications

Model Number:	AO5000PRO	
Electrical Specs:	24 VDC, 65 Watts	
Product Dimensions:	Not Packaged:	Packaged:
	21.5" x 6" x 5.25"	25" x 10.5" x 6"

Great for pet clinics, hotel rooms between guests, nail salons & more.

Proven Performance

Both AHPCO & Bi-Polar Ionization technology have undergone over a decade of rigorous university and certified laboratory testing around the world with documented kill rates of Polio (98.9%) and SARS (73.4%) in less than 4 seconds*. Additional info available upon request.

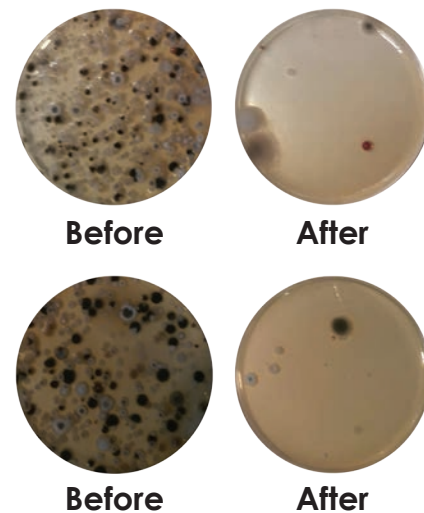

AO5000PRO Quickly Reduces

- Mold, bacteria & viruses
- VOCs & odors
- Particulates
- Allergens
- Smoke, pollen & air borne dust
- Static electricity

Contaminant Removal Rate Results

Contaminant	Removal Rate
C. Diff	Up to 86.87%
E. Coli	Up to 99.68%
MRSA (STAPH)	Up to 96.24%
M. terrae (TB surrogate)	Up to 69.09%
VRE	Up to 99.00%
Air borne mold reduction	Up to 99.00%
Air borne particulate & allergen reduction	Up to 90.00%
(CDIFF) reduction	Up to 86.00%
E. faecium reduction	Up to 99.00%
Formaldehyde reduction	Up to 99.00%
TVOC reduction	Up to 99.00%
H5N1 & H1N1 reduction	Up to 99.00%
Feline Coronavirus reduction	Up to 99.00%
Coxsackie Virus reduction	Up to 99.00%
