Company Profile

Since formation in 1988, AIT Ltd has provided leading-edge technologies backed up by excellent, responsive service and support. The solutions are robust and highly scalable, delivering significant cost savings through automation of processes, increased productivity and enhanced management control.

AIT Ltd is the exclusive distributor for a number of specialist technology companies and has developed channel partnerships within the software, printing and associated industry sectors.

Areas of specialisation include print & copy management, email & web protection, auditing & security and directory services management. Onsite services are available which include bespoke training, installation, configuration and consultancy services. Scheduled training courses are also held on a regular basis.

CUSTOMER BASE

AIT Ltd has built an extensive customer base across a variety of industries spanning the corporate, education, financial, government and commercial sectors. In the education sector, Altman Integrated Technologies' solutions are used in over 60% of colleges and universities and hundreds of schools. Testimonials and case studies are available on our website.

PRINT & COPY MANAGEMENT

Enterprise level auditing, accounting, cost control, cost recovery and reporting for all print & copy output, introducing accountability, control and dramatic cost savings through the elimination of waste and misuse.

EMAIL SECURITY

Precision filtering, protection, auditing, archiving, reporting and control for an organisation's email & web traffic through a hosted, managed service that delivers enhanced security, legislative compliance and vast savings in staff time.

INTERNET SECURITY SOFTWARE

Our leading web software can increase productivity by blocking out websites that you deem inappropriate or distracting. You could block social media websites and make sure employees or students don't get distracted or exposed to malicious material. You can set-up what you want blocking so you have the freedom to protect your web users.
