FACILITIES CONDITION ASSESSMENT

FIELDFLEX MOBILE

BOOK DEMO NOW!

FieldFLEX is releasing their premier mobile application for Facility Condition Assessment (FCA).

SECURE • SCALABLE • INTEGRATED

Designed specifically for facilities engineers and inspectors to gather asset data, perform asset condition audits, and estimate repair & replacement costs. The mobile app will allow organizations to rapidly collect and establish accurate asset records, support sustainable funding models, make critical decisions in a shorter time, and feed data directly into the capital planning and operational process.

FEATURES

Perform asset inventories and audits
Create assets and other portfolio data on the fly
Observe/record asset & location condition
Estimate asset repair & replacements costs on-the-spot
Perform ad-hoc or scheduled assessments
Route emergency deficiencies directly to operations
Integrates easily with IBM TRIRIGA
