

Products and product bundles to help you evolve your color palette.

All products listed here include PANTONE COLOR MANAGER Software, which lets you work with more than 10,000 PANTONE Colors in your favorite digital design programs.

SOLID COLOR SET

GP1608

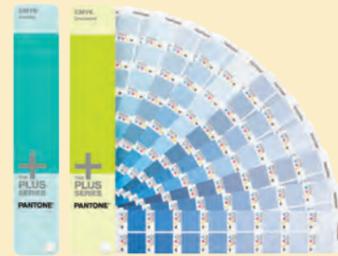

The SOLID COLOR Set offers graphic designers, pre-press professionals and printers 1,755 solid color choices in both fan guide and chips formats. Use fan guides to select, specify and match color, and attach tear-out chips to artwork and digital files for easy and consistent color communication.

SOLID GUIDE SET

GP1605

The PANTONE SOLID Color Set provides the widest selection of solid color choices for color and design professionals who demand choice, versatility and speed. Includes FORMULA GUIDE Solid Coated & Solid Uncoated, PREMIUM METALLICS Coated, METALLICS Coated and PASTELS & NEONS Coated & Uncoated.

CMYK Coated & Uncoated

GP5101

This two-guide set contains 2,868 CMYK colors, each printed on coated and uncoated stock. Visualize, communicate and control CMYK process colors for type, logos, borders, backgrounds and other graphics treatments. Screen tint percentages are provided for every color.

STARTER GUIDE

GG1511

The PANTONE PLUS SERIES STARTER GUIDE is perfect for students or anyone starting out in design, with selections from all PANTONE PLUS SERIES Color Libraries, for a total of 543 PANTONE Colors in chromatic order.

ESSENTIALS

GPG301

The PANTONE ESSENTIALS bundle contains all our solid, solid-to-process and process only colors in a stylish, easy-to-take-along carrying case. Includes FORMULA GUIDE Solid Coated & Solid Uncoated, COLOR BRIDGE Coated & Uncoated and CMYK Coated & Uncoated.

REFERENCE LIBRARY

GPC305

With more than 10,000 colors, the REFERENCE LIBRARY is the must-have set for agencies, in-house marketing departments, printers or schools. The set includes the full collection of the PANTONE PLUS SERIES fan guides and chips books – all of our spot colors, metallics, pastels, neons and process colors for print, packaging, web, video and other applications.

Color, Evolved.

PANTONE Graphic Design Tools 2015

Make it Brilliant.™

Evolve your color toolbox with the most up-to-date guides, books and software from Pantone.

Fifty-two years of color intelligence means that each new color is more brilliant than the last as the options multiply. With updates influenced by designers, trends and discovery, our guides and books continually become more thorough and expansive.

Now with 644 new colors added since 2010, the PANTONE PLUS SERIES for graphics and multimedia – the current version of the PANTONE MATCHING SYSTEM® – contains a broad selection of 1,755 relevant solid colors which can be easily updated in your design software, ensuring clear global communication and matching.

The only internationally recognized color standards system for multimedia, multi-platform graphic design and production, the PANTONE PLUS SERIES is the system of choice for creatives and color professionals working in print, packaging, web, video and animation.

The PANTONE PLUS SERIES gives you 1,755 solid color choices, plus thousands of attention-grabbing specialty colors:

- 200 cool PASTELS and hot NEONS
- 601 lustrous METALLICS and sizzling PREMIUM METALLICS
- 2,868 additional process-only CMYK colors

FORMULA GUIDES and SOLID CHIPS Solid Coated & Solid Uncoated

The standard for color standards.

For over 50 years, PANTONE FORMULA GUIDES (shown on cover) and SOLID CHIPS Books have set the standard for color selection and reproduction. Now with over 1,700 colors, these comprehensive color publications have also been updated to include Color Manager Software, so you can easily incorporate the most up-to-date color libraries in your design software. Printed on the most commonly specified coated and uncoated stocks to provide the best representation possible.

PANTONE COLOR BRIDGE® Coated and Uncoated

Solid, CMYK, RGB, hex – one guide for every application.

A designer's dream. See how well each PANTONE MATCHING SYSTEM Solid Color will reproduce in 4-color process with a side-by-side printed comparison. Each color also includes CMYK, RGB and hexadecimal values, making it easy to apply consistent color across print, packaging and the web. PANTONE Color Manager Software makes it easy to see how color profiles will affect your color on-screen or in print.
