Professional Health & Safety Advice

Companies with five or more employees are required by law to have a written Health and Safety policy.

This policy statement will document how your company manages health and safety. It is a unique document that shows what tasks are performed; how they are carried out; if it is safe to do so and how it can be made safer.

Apart from the legal requirements that your policy document fulfils, it demonstrates your commitment to providing a safe place to carry out business. This commitment shows your staff that you care about their welfare and will play a major part in reducing work related illness and injury.

So as you can imagine a major part of the service provided by THE WILKINS SAFETY GROUP is the writing of a policy document specifically tailored to your company.

We also can help you with the writing of all your risk assessments, COSHH assessments, method statements and all safety documentation you need to successfully manage the Health & Safety of your business

COMPANY HEALTH & SAFETY DOCUMENTATION INCLUDES:

- Company Policies and Organisation Arrangements
- Risk Assessments
- COSHH Assessments
- Safe Systems of Work (SSOW)
- Fire and Emergency Procedures
- Portable Appliance Test Report
- Accident Reporting - R.I.D.D.O.R
- General Health, Safety and Welfare
- Instruction, Information & Training
- Health and Safety Documents
- Health and Safety Action Plan
- Site inspection reports
- Asbestos register
