A Hy-Tech Group Company

Hy-Tech Engineers Pvt.Ltd. today is a nation wide leader in the manufacture of Hydraulic fittings, Hydraulic cylinders, Hydraulic Hose Assemblies and related products catering to almost all leading Machine Tools Manufacturers, Automobile Industries and Steel Plants. Founded in 1978 , by a team of dedicated technocrats . It has consistently grown in leaps and bounds, has won accolades from all their esteemed customers, in attaining this goal. The Company's objectives of meeting the customers increasing expectations for Quality, Delivery and Value were never compromised.

On popular demand from the customers to be a one point Hydraulic Solution Provider, Hy-Tech now introduces hydraulic cylinders, under "Hy-Tech" brand. These cylinders are also being manufactured under "FASTO" brand since 1991 and are well known in Indian Market for their quality, delivery and lifetime field support for OEM applications.

All the manufacturing process & parameters are being statistically controlled. Required and Mandatory tests as suggested by international standards are being 100% carried out to ensure getting a defect free hydraulic cylinder with long life.

Hydraulic Cylinders up to 700 mm Bore Diameter and up to 1,000 Bar pressure have been manufactured by us.

ISO 6020/1 Hydraulic cylinders

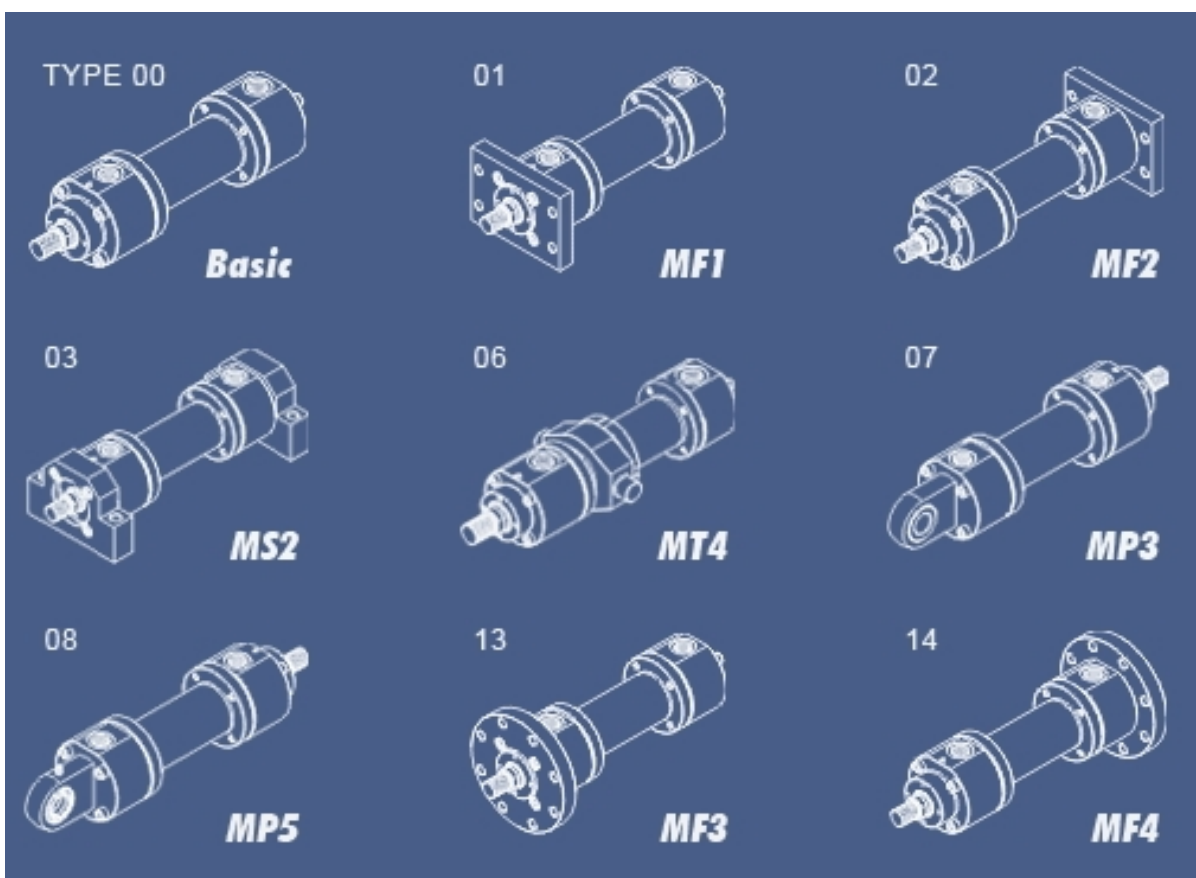

Mill Type Design

Nominal pressure 160 bar

Test pressure 250 bar

Piston dia. 25 up to 320 mm

Piston rod dia. 14 up to 220 mm

ISO 6020/2 Hydraulic cylinders

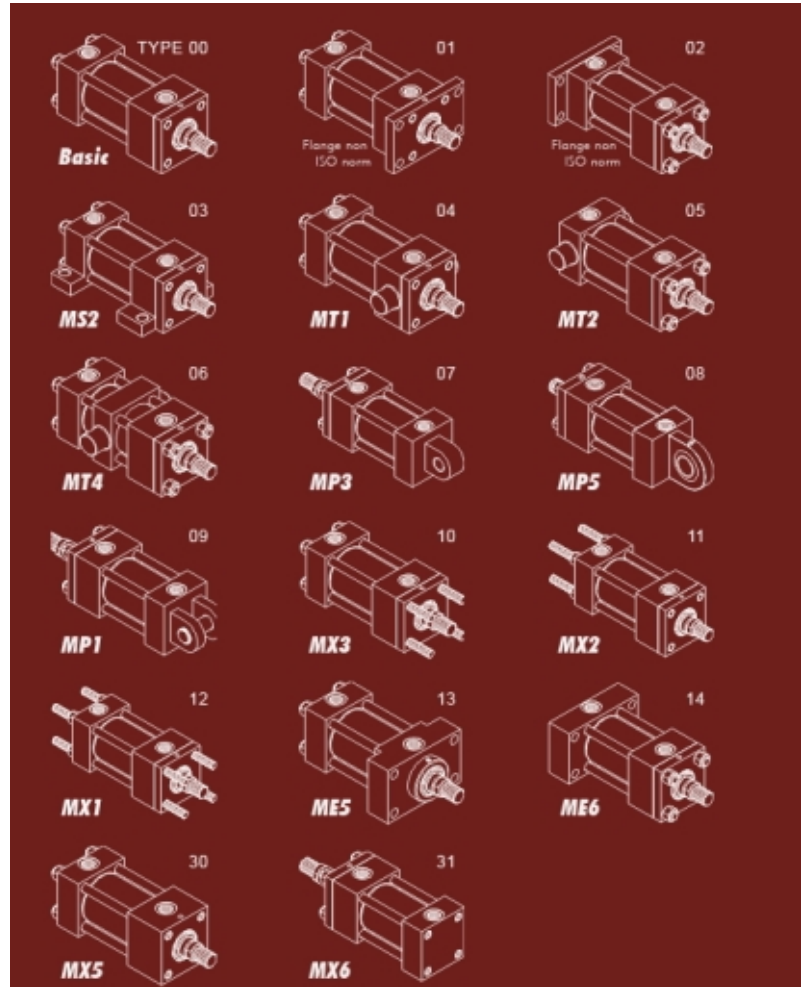

Nominal pressure 160 bar

Test pressure 250 bar

Piston dia. 25 up to 200 mm

Piston rod dia. 14 up to 140 mm
