## Spring Clean Your Bathroom Checklist

We use our bathroom everyday, frequently cleaning up small messes, emptying bins, removing wet and dirty towels. Spring time is perfect for giving the bathroom some much needed TLC, getting into all of the hidden crevices we don't normally reach during our routine cleaning. Use our checklist to help you reinvigorate your bathroom.

Remove any dirty towels, cloths and bath mats and place in the laundry, remove any other items that don't belong in the bathroom e.g. jewellery

If you have any bathroom storage e.g. cabinets, empty them completely, washing inside and replacing items neatly.

Clean your toilet inside and out, remove the seat and clean around seat bolts thoroughly

Wipe down the bathroom sink, pay special attention to taps and other areas with small crevices and the plug hole

Scrub out the bath and shower area, paying attention to crevices, handles, taps, shower heads and drains. Remove any hair that may be clogging your drains

Wash shower doors, or remove the shower curtain to wash it. It might be a good time to replace a shower curtain for an easy, affordable style update. Shower screen seals could be replaced with a Uniblade Universal shower seal

Wipe down the mirror with glass cleaner or vinegar

Wash windows, window sills, walls, trims, door and door knobs, these areas might be overlooked as part of your routine clean

Dust light fixtures.

And finally sweep and wash floors replacing bath mats and towels for those final finishing touches
