

ROSCAN

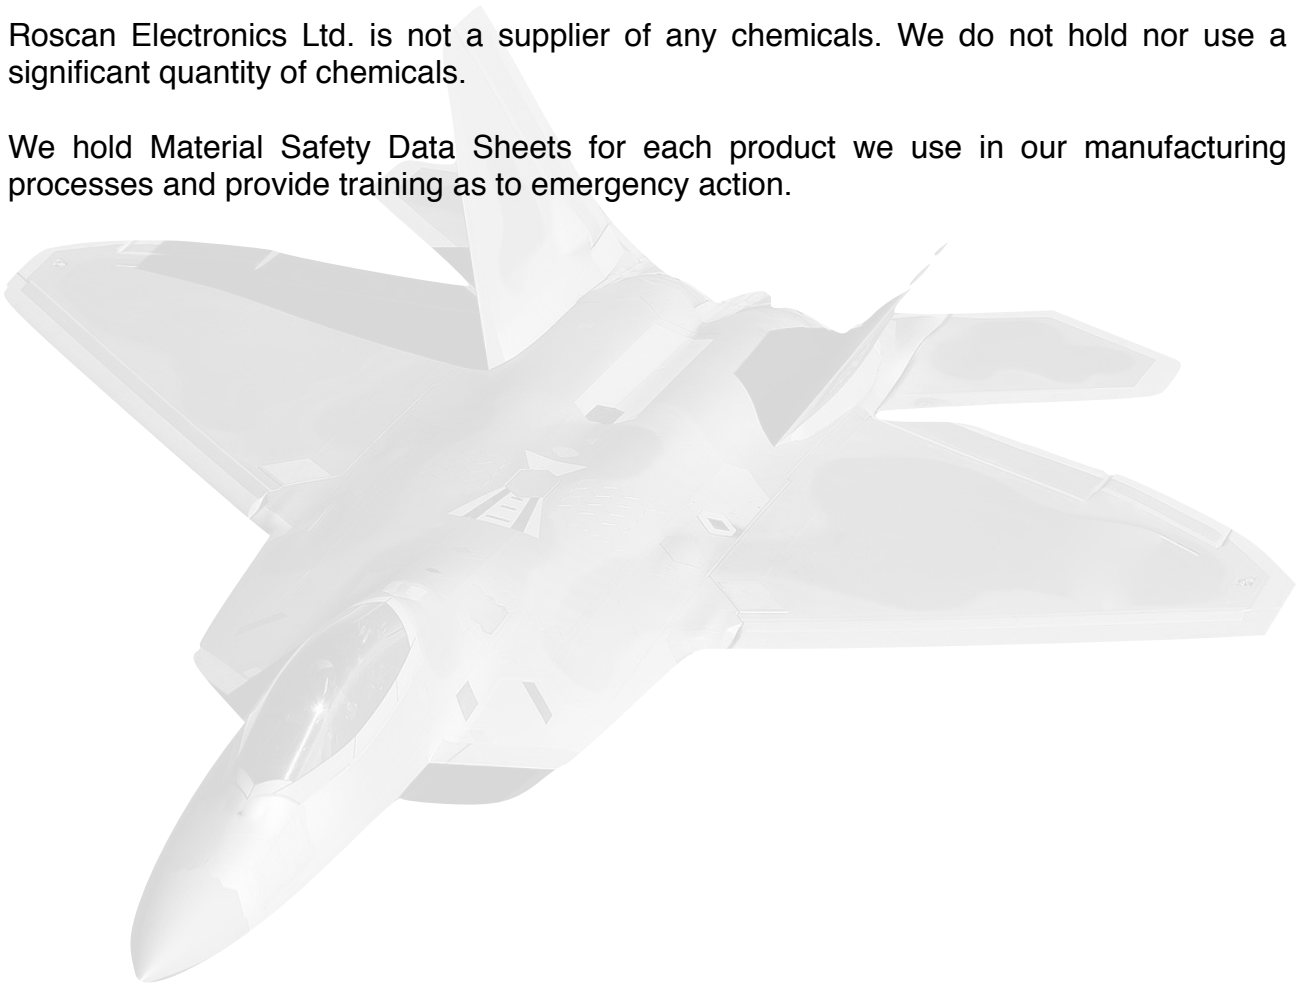

ELECTRONICS

REACH STATEMENT

REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) is the system for controlling chemicals in Europe. It became law in the UK on the 1st June 2007. REACH adopted some of the older aspects of the chemicals system in Europe, including Material Safety Data Sheets (MSDS).

Roscan Electronics Ltd. is not a supplier of any chemicals. We do not hold nor use a significant quantity of chemicals.

We hold Material Safety Data Sheets for each product we use in our manufacturing processes and provide training as to emergency action.

A handwritten signature in black ink, appearing to read 'Nathan Martyn', positioned above the printed name.
