We present to you the new Petal **Colour Collection 4**. A fresh and on-trend collection, offering a valuable, one-stop resource of quality Formica® products for architects, designers and manufacturers of commercial and public washrooms and related environments.

A more extensive range incorporates innovative decors and surface finishes so that your designs will be right on the pulse of current trends.

In addition to the assurance that Formica® products will perform in these demanding environments, the new collection brings you three new and enriching textures in a refreshed and contemporary range, perfect for mixing and matching.

Bring excitement to your projects with Petal Colour Collection 4.

Petal **Colour Collection 4** is available in Formica® postforming grade laminate and Formica® Compact. Two perfectly compatible products sharing the same range of designs so you can choose the best solution in every situation to create stylish, practical and functional environments.

Formica® Compact

Ideally suited to particularly demanding environments subject to high levels of humidity, impact, and wear and tear; cubicles, locker systems and wall linings.

Formica® Laminate

An ideal solution for the demands of the modern washroom environment. Formica® postforming grade laminate meets the need for stylish, curved elements; vanity units with integral upstands; cubicle systems and wall panelling with gentle curved edges.

Formica® products provide unbeatable solutions for washroom applications such as cubicles, lockers, vanity units and wall panelling.

- Highly resistant, durable and dependable
- Easy to maintain
- Hygienic and easy to clean
- High resistance to moisture
- FSC® certified across complete range
- Formica® Compact features a black core with a decorative surface on two sides
- Formica® Compact is CE certified to meet or exceed conformity with European consumer safety, health and environmental requirements.

A Wide Range of Possibilities

The Petal **Colour Collection 4** designs can be easily mixed and matched to bring a contemporary and innovative air to environments.

A total of 52 designs, 25 of them new, offer you a wide and colourful range of possibilities to choose from.

In addition, the new collection introduces three new finishes: Plex™ (red dot design award), Puregrain™ and Linewood™, Bringing surfaces to life with the touch of crisp textiles and brushed, natural timber

Descriptions Certificates and Features

Formica® Compact

Formica® Compact is a high pressure structural laminate, built up from multiple layers of kraft paper to produce a laminate in thicknesses from 2mm to 20mm. It has a decorative face on both sides and is ideal for interior use in washroom cubicles or locker systems, wall panels or laboratory furniture. It is particularly suited to use in high humidity, high impact areas. With a weight of 14.5 kg/m² (for 10mm thickness), Compact (grade CGS) is impressively strong and damage resistant and has remarkable structural stability, requiring no substrate support in thicknesses over 6mm. Formica® Compact is certified by the CE Mark to meet or exceed conformity with European consumer safety, health and environmental requirements.

Performance Features

	Chemical Resistant
	Any Orientation
	Impact Resistant
	Water Resistant
	Hygienic
	Self Supporting [Grade CGS]
	Fire Resistant [Grade HGP]
	Flat Bonding [Grade HGP]
	Postform [Grade HGP]
	Stain Resistant

The Performance Feature icons are for general reference only. For more specific information, including technical data and warranties please refer to www.formica.com (knowledge).

Formica® Laminate

Formica® High Pressure Laminate (HPL) is manufactured through fusing multiple layers of impregnated paper under high pressure and temperature to create a hard wearing, durable and hygienic surfacing material. The Formica® Colours, Patterns and Woods ranges are high pressure laminates which are available in horizontal, general purpose, postforming grade (HGP) as standard.
