PREFACE

The Commission on Revenue Allocation (CRA), is an independent Commission set up under Article 215 of the Constitution of Kenya 2010. Its core mandate is to recommend the basis for equitable sharing of revenues raised nationally between national and county governments, and among the county governments.

CRA's first team of commissioners were sworn into office on 11th January, 2011. In line with the commission's mandate, the commissioners visited several counties to disseminate information on its recommendations on revenue sharing and elucidated the reasons used to make those recommendations. In addition, the Commission conducted several trainings on budget making, expenditure control, among others.

2016, was the final year in office for the first commissioners. This photo book highlights some of the activities carried out by the first team of commissioners since the formation of the Commission as well as projects implemented by national and county governments since the inception of devolution.

COMMISSIONERS

THE COMMISSIONERS

Mr. Micah Cheserem
Chairman

Ms. Fatuma Abdulkadir
