

GLOVIA G2

POWERFUL SOLUTIONS DESIGNED BY MANUFACTURERS FOR MANUFACTURERS

FUJITSU GLOVIA, INC. offers discrete manufacturing ERP software and solutions that enable small to large manufacturing companies, assembly operations and mixed-mode businesses to meet customers' ever-increasing requirements for high-quality, on-time and on-budget production. Available as on-premise or cloud-based manufacturing ERP software, **GLOVIA G2** offers an innovative, highly visual user interface with universal use on any desktop or mobile device.

The company's **GLOVIA G2** manufacturing ERP solution provide powerful enterprise resource planning, oversight and control of the entire production and business management process, LEAN manufacturing, product development, supply chain, operational control, delivery and customer retention.

GLOVIA G2 manufacturing ERP software is ideal for a wide variety of suppliers, including: Automotive, Electronics, Aerospace & Defense, Telecommunications, Capital Equipment, High Volume, Made-to-Order, Configure-to-Order, and Mixed-Mode Manufacturing

Flexible, Open and Integrated:

- **GLOVIA G2** is flexible, so you can add functionality as your needs grow.
- **GLOVIA G2** is outwardly open, so it is easy to link your systems and communicate with customers and suppliers.
- **GLOVIA G2** is inwardly open too; users have rapid access to vital information and insights into their working day.
- **GLOVIA G2** is integrated, so you can manage all of your operations with one solution and one real-time database.

Global Capabilities

You can deploy **GLOVIA G2** tactically to manage an entire global business, or operationally to run a division, business unit, or stand-alone company. Whether you are a division of a larger company or a smaller, growing manufacturer, you may have customers, suppliers and plants around the world. Our solution is ready.

GLOVIA G2 supports multiple languages and currencies, as well as complex and evolving business structures.

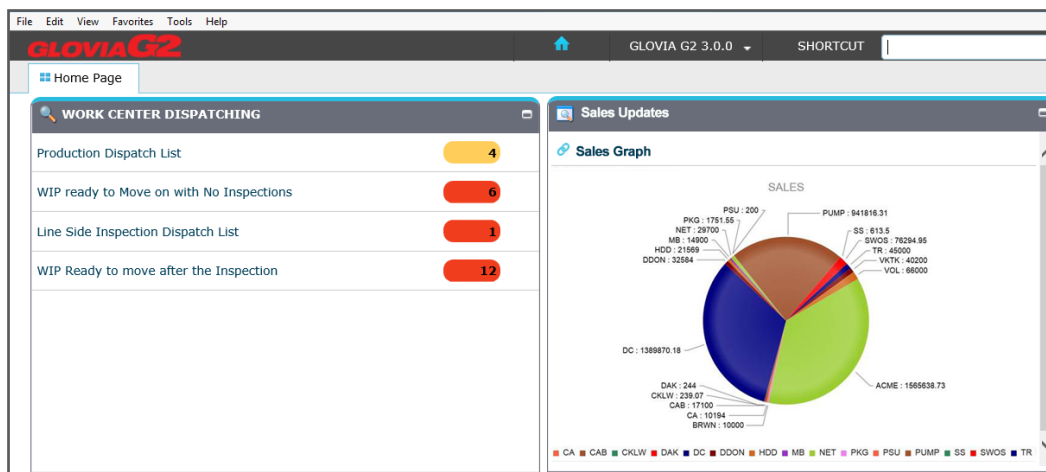

Total Cost of Ownership

GLOVIA G2 eliminates costs, boosts productivity, improves

responsiveness, and increases customer service so you get the most out of your investment. We can implement our solution in months, not years, providing immediate benefits and one of the lowest total costs of ownership in the industry.

Supports Your Evolving Needs

With **GLOVIA G2**, we harnessed the open technologies behind Microsoft .Net to strengthen our collaboration capabilities and bring you closer to your customers and suppliers. We increased our integration technology to link disparate systems and automate processes. We expanded our supply chain functionality to enable you to fulfill orders intelligently.

User Experience

Traditionally, ERP systems store vast amounts of data, but that data can be difficult to access and

understand. **GLOVIA G2** exposes the power of the system by allowing users to quickly and intuitively find the data they want and then act on that data. In a user's personal portal they will have access to a complete range of analytic and reporting tools, metrics, dashboards, etc. to allow them to understand the business and its behavior.

Beyond Limits: GLOVIA G2 Architecture

Our solution is the result of over forty years of continuous effort by some of the best developers in the world. **GLOVIA G2** architecture is the foundation for superior, long-term functional depth and breadth, which provides key advantages to you:

Integration

All modules are seamlessly integrated. You can add new functionality as your needs grow with no worry about costly integration procedures. Service based architecture allows quick integration with other systems.

Scalability

GLOVIA G2 can grow as your business grows. Our n-tier architecture and powerful core technology support large scale, high transaction-volume businesses. You can scale from a handful of users to thousands of users and support thousands of transactions to millions of transactions. You will never outgrow your investment with us.

Flexibility

While other solutions are parametrically driven, **GLOVIA G2** is data-driven. Rather than lock you into one mode of operation, we natively support multiple manufacturing modes simultaneously. **GLOVIA G2** can change as your processes and strategies change— with no need for costly reimplementation.

Real Time

Manufacturing is volatile and you need to be able to support that volatility. With **GLOVIA G2**, transactions are recorded in real-time to a live database. Data changes are instantly validated and updated throughout the entire solution. This is an absolute requirement for today's competitive, extended enterprise. True customer responsiveness and proper planning and collaboration with partners depend on accurate, up-to-the-second information

Research and Development

FUJITSU GLOVIA, Inc. has a deep commitment to ongoing product development and enhancements, particularly those suggested by our customers. We have always been heavily R&D driven and with the solid backing of Fujitsu and its emphasis on product development, we are set to lead the way today, tomorrow, and years from now.

Beyond Expectations Delivering Value and Results

For more than three decades, **GLOVIA G2** has helped manufacturers around the world to manage, strengthen, and grow their businesses. We designed our solution to deliver tremendous value to our customers— including a rapid return on investment and low total cost of ownership.

Drive to a leaner future with GLOVIA G2!

Essential GLOVIA G2 Business Benefits Include:

Enterprise Wide Visibility

GLOVIA G2 provides you with true supply chain transparency as it eliminates information silos, integrates systems and business processes, and links you to your customers and suppliers.

Unmatched Flexibility

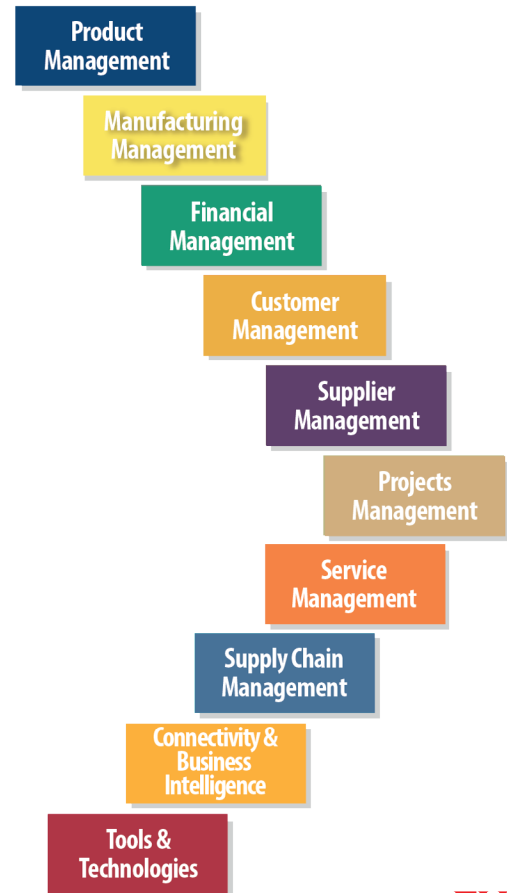

GLOVIA G2 supports your business, no matter what your industry or manufacturing mode, without forcing you to change your business processes— **GLOVIA G2** is an investment in your future.

Real-Time Responsiveness

The **GLOVIA G2** User Experience slashes order-to-fulfillment cycle times and helps you get the right product to the customer at the right time.

Improved Efficiency

GLOVIA G2 helps you reduce costs as it eliminates excess inventories, boosts productivity and effectively manages resources.
