

HULL BLACKING.

Offering a full range of market leading products and solutions for your hull Aqueduct Marina's experienced staff can assess your boat and advise on the most suitable product for your budget.

BLACKING IS OUR BUSINESS

ADVANCED (2 Pac Epoxy)

This proven process offers your superior protection and is the surveyors choice for preserving the condition of your hull. This is achieved by grit blasting preparation and hard wearing 2 pac epoxy coatings.

PREMIUM (Various)

Providing a higher level of durability and protection these leading products are market recognised for their quality and can be carried out from start to finish in approximately 7 days.

STANDARD (Bitumen)

A cost effective alternative to premium blacking Bitumen can be applied over most coatings and is normally completed in just 7 days.
