

Estuate helps Cambia Health Solutions wipe out legacy systems

Cambia Health Solutions is a non-profit health insurance company headquartered in Portland, USA. The company works with a mission to transform healthcare by making it economically sustainable for all. Their solutions include software and mobile applications, non-traditional health care delivery models, health insurance, life insurance, pharmacy benefits management, wellness and overall consumer engagement.

1. Business Challenge

Cambia was faced with the key setbacks of using legacy systems in modern times.

Their legacy systems were obsolete and no longer supported their current business processes

The large volumes of historical data in their applications was consuming substantial storage space

These legacy systems were inefficient as well as expensive to maintain

2. Estate Solution

Estuate helped Cambia with a proven application retirement and data retention solution.

- **Retired legacy mainframe applications** using IBM InfoSphere Optim Application Retirement Solution
- **Archived historical data** from retired systems and moved them to a low-cost storage environment
- **Optimized database code** to ensure access to historical data and used modern user interfaces to improve efficiencies

3. Business Impact

With Estuate's application retirement solution, Cambia experienced some significant performance improvements. The benefits included:

Improved utilization of valuable resources as a result of the retirement process

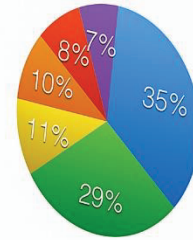

On-demand access to archived application data for audit and compliance requirements

Major cost cutting as hardware, storage, and maintenance expenses were minimized

Improved risk management by storing historical data in a read-only format

Testimonial

//

Our growing business requirements called for an improvement in our infrastructure landscape. Estuate helped us match up with the current industry trends by retiring our old-school applications and retaining data there-in effectively. They were an ideal partner for this project.

- Keith Anderson,

Project Manager, Cambia Health Solutions
