DEAR PARTNERS

PAST EDITIONS NUMBERS

AND 2020 FORECAST

Dear Partners,

We warmly invite you to join us in Paris for our 22nd edition of International Master Course on Aging Science. We celebrated together our best congress yet in 2019 with more than 11 000 participants, 800 speakers, and 326 scientific sessions. It was a memorable opportunity for us all to collaborate and network with colleagues and clients from more than 112 countries over 3 days.

This year we are expecting more than 12 000 attendees, and have carefully updated the products on offer to help you capture your market in the optimal way possible. We are proud to present our user-friendly system created especially for you, which gives you full freedom to select your booth and sponsorship to suits your needs.

Take your time to browse through the online interactive floor map to identify the space you want, and select from our extensive product catalog for innovative ways to participate!

- You can expect these new features in 2020:
- Brand new coworking space for our busy delegates who keep their finger on the pulse during the congress
 - New opportunities to be part of the scientific program by granting a lecture within a series, “young” module or a research poster
 - Individualized AV consulting to make your symposium go even further
 - New signage options including digital commercials in the welcome area, elevator doors, mezzanine handrail and illuminated banners
 - Updated “kits” which save you on time, work, and money!
- We also hope to get glammed up with you at our famous Gala Dinner for festivities on the Saturday evening. Don't miss this opportunity to connect and exchange with physicians and industry representatives alike on an intimate level in a relaxed setting.
- We look forward to welcoming you in Paris!
