- CFATS
- SOX

PROFICIENT
Our team of industry leading consultants can provide intelligent insight into your organization's security posture through comprehensive assessment services along with expert advice. We can guide you through the reports to ensure your IT infrastructure is adequately aligned to deal with the inherent challenges organizations face today.

COMMITTED
We are here to help you meet your regulatory requirements, or to provide guidelines for cyber security if your industry does not fall within a compliance framework. We make it easy for you to understand your obligations, and most importantly, we will be there every step of the way to help you achieve your cyber security objectives.

PRINCIPLED
As a pure-play services provider, we have no hidden agenda to sell products. Our goal is to help our clients build secure, compliant IT infrastructures, one organization at a time. Cyber security and compliance are an ongoing process, not a moment in time when you expect an audit.

DRIVEN
We have a proven track record of creating customized solutions exceeding expectations on security and compliance initiatives for clients in a wide range of industries.

SECURITY TESTING & ASSESSMENTS

Will your company's security position hold up to the rigorous challenges ahead?

It's impossible to say without assessing and testing your systems and controls. Organizations are facing cyber risks that are unprecedented in both sophistication and persistence. Technology is sprawling and increasing in complexity.

Our testing and assessment services can help you **identify unknown vulnerabilities** lurking in the background so you can **remediate issues and gaps** in your security before someone else finds and exploits them.

Security testing is not only a good business practice, it's recognized as a **mission-critical** component of a sound security approach mandated by every security standard in existence.

Our team of accredited consultants are experts in cyber security and compliance, and we're on a mission to help our customers create secure infrastructures. Ours is a **proven approach**. We thoroughly assess your organization, and back it up with expert **vendor-agnostic** guidance to achieve your objectives. Ask us to **asses your risk level** through:

- Vulnerability and penetration testing
- Web application penetration testing
- Social engineering
- Pre- and post-incident response forensics followed by Compromise Assessment

- Enterprise security risk assessment
- Third-party risk assessment
- Business associate management
- Vendor management

COMPLIANCE REQUIREMENTS & CERTIFICATIONS

Do you find data compliance confusing?

Nearly every business operates under some industry regulatory requirements. Whether it's personal, health, or financial data, expectations and responsibilities to safeguard data have never been more urgent and the stakes have never been higher to **maintain customer trust**.

At Foresite, helping organizations like yours meet the challenges of today's cyber threats is what we do day in and day out. We translate the alphabet soup of compliance acronyms into **language that makes sense** and successfully guide you to a position of vigilance and strength, competence, and peace of mind.

And then we help you ensure it stays that way.

Foresite knows PCI. Actually knows the rules, what needs to be done and has a practical, hands on approach. Foresite has helped on the road to compliance and has helped me learn the space along the way."

ABOUT **US**

Foresite is a global service provider delivering a range of managed security and consulting solutions designed to help our clients meet their information security and compliance objectives. In the face of increasingly persistent cyber-threats, Foresite's solutions empower organizations with vigilance and expertise to proactively identify, respond to, and remediate cyber-attacks and breaches where they occur. Our team of industry veterans work as an extension of our clients' staff providing peace of mind while securing their most important assets.
