

# ST-10 Multi-function test tweezer

Smart Contact Easy Test

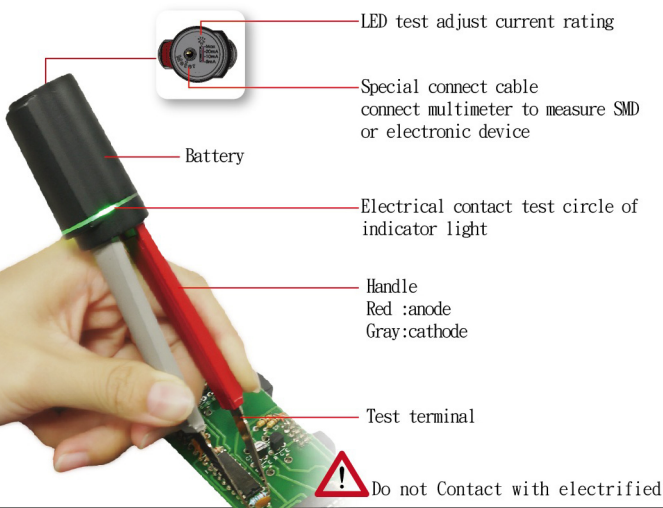

Testweezer

Test LED light, Fuse, Resistor, Switches,  
PCB circuit electrical contact test...etc.

## ST-10 Multi-function test tweezer

delicate Testing Tweezers (ST-10) for easy and quick testing mechanical contacted of micro-electronic components such as switch, fuse, PCB circuit. By connecting with multi-meter with special connector cable, Testing Tweezers can test resistor value. Adjustable electrical current is another feature for lighting up all kinds of LED, very useful for engineers and sales persons for instant check and display.

Part Number : ST-10  
Weight : 50g  
Material : ABS、Steel  
Dimensions : 36\*25\*155mm  
Battery : 23AE 12V

Accessories :

1. Screwdriver
2. Special connetcor
3. Battery
4. Bag

Change Battery Figure :

1. Take off screw
2. Pull out top
3. Change Battery
