

MISSION STATEMENT

Our philosophy and mission is to provide our clients with high quality demolition solutions through our extensive skills and expertise.

We offer the ability of sound technical advice and assistance in surveying, planning, budgeting and programming to implement the safest and most cost effective options to any project.

With constant training and method reviews, our technical/contract staff, endeavour to carry out every project to the highest standard.

Throughout the project, consideration is given to ensure minimal effect to the environment. Our target is to maximise the recycling potential of materials arising from each process.

Continual training is adopted in-house and externally to ensure all operatives adhere to our strict Health and Safety requirements. Our Group SHEQ Manager monitors staff performance. This allows our clients the comfort of knowing safe practice is our norm.

We provide our clients with proven solutions and proactive resolve.

This Mission Statement is available to the public via the website at www.hughesandsalvidge.co.uk
