SERVICE BULLETIN

ARMCON

CERTAINTY: IN CONCRETE

SAFETY FIRST

Never climb on top of a concrete dispenser - falls are the biggest single cause of accidents at work

Always remove keys and lock off power before carrying out any maintenance

Never adjust the machine when it is running - this could cause crushing injuries and sometimes loss of limbs

CONCRETE BURNS -
Always wear the correct PPE equipment when handling concrete and chemicals

Learn how on
You Tube

Warn your customers of the dangers of working with concrete before you begin each delivery
