

PROVINCIAL GRAND LODGE OF HAMPSHIRE AND ISLE OF WIGHT

A Military Combined Services Lodge in Eastleigh

With a proud History, **William Fawcett Lodge 8612** was founded in 1974 as the P&O shipping lodge.

Meeting at the Eastleigh Masonic Centre, it is currently undergoing a repurposing to a **Combined Services Lodge** for the next great chapter in its fine history.

There has long been a need for such a lodge to meet the requirements of local Masonic veterans, serving members of our armed forces and those who share the values of public service, in the Winchester, Eastleigh, and Southampton. **William Fawcett Lodge** will provide a familiar environment to candidates with a services background and looking to attract serving members.

Whether you are a Master Mason on the back benches of a lodge who seeks faster progression, or a more experienced brother who seeks to support the transformation of this wonderful lodge, whether in office or in a supporting role or just wishes to be amongst likeminded masons, servicemen and veterans, now is the time to put your left foot forward.

If you want to be part of a lodge whose meetings will be quick, efficient, low in bureaucracy, high in quality ritual and with the esprit de corps, enjoyment, and, dare we say, fun of a services lodge, then contact **W.Bro Charlie Rainey**, NC Area Mentor at crainey37re@gmail.com

The Lodge currently meets four times a year. 2nd Tuesday in February April (I), October and December and would welcome your company, friendship and support.

Hampshire & IOW Pathway App

In line with the Provincial Learning & Development Strategy, each of our Areas has now appointed its own L&D Operations Team responsible for the implementation of Learning & Development to the lodges within its Area.

These Operations Teams have been briefed as to the concept and the use of **Solomon** as a resource tool and will shortly begin the process of introducing various initiatives to their respective lodges. A previous Provincial Communication (L&D Communication No2) provided a step-by-step guide to accessing **Solomon** in the World Wide Web.
