- Touch dry in 4 minutes at ambient temperature
- Hard dry in less than 15 minutes (RH 50% & ambient temperature)
- Available in white and yellow (other colours on request)
- Can be applied up to 300 µm in one coat

SustainLine 70 is a water-based, high solids acrylic paint designed for exterior line marking that is quick drying, has easy application and excellent durability. SustainLine 70 is low in VOC, low odour and meets all EU legislation on emission limits.

SustainLine 70 is the eco-friendly alternative for standard solvent based and thermoplastic line marking products and offers the advantage of ease of application by brush, roller and airless spray equipment. Special equipment maybe required if adding specific beads to paint on application. (i.e. single drop, double drop applications).

SustainLine 70 was initially developed in the 1980's and has since been modified to continuously exceed the needs of the ever evolving market. SustainLine 70 is used in a variety of applications, where there is a need for durable line marking without the necessity for expensive and complicated application equipment used in applying thermoplastic products. SustainLine 70 has an extensive proven track record and is used on:

- Parking garages
- Airfield landing strips
- Motorways
- Warehouses
