**What is streaming?**

Streaming is the way audio & video content is delivered over the internet. With the internet speeds from Mid Century Fiber you can be streaming on multiple devices and TVs at the same time.

**Why stream?**

Streaming lets you watch what you want, when you want. You don't have to wait on downloads or for the show to come on the air. There are several services that allow you to watch movies and TV shows for FREE, as well as paid subscriptions, offer LIVE TV and sports at a fraction of the cost of traditional cable TV.

\*Pricing and information subject to change. Streaming devices change as technology changes and new devices are added to the market. You can view the most current devices by searching the internet with your favorite browser.
